SHORT STATEMENT OF PRINCIPLES.

THIS SOCIETY differs in its principles from any other Office.

INSTEAD of charging rates admittedly higher than are necessary, and afterwards returning the excess, or a portion of it, in the shape of Periodical Bonuses, it gives from the first as large an Assurance as the Premiums will with safety bear—reserving the Whole Surplus for those who live long enough to secure the Common Fund from loss.

A Policy for £1200 to £1250 may thus in most cases be had for the Premium usually charged for £1000 only; while, by *reserving* the surplus, large additions may be expected on the Policies of those who live to participate. In a few cases, Policies sharing at the whole four divisions have already been doubled.

ITS TERMS are thus well calculated to meet the requirements of intending Assurers. They are specially adapted to the case of Provisions in Family Settlements, where it is of importance to secure, for the smallest present outlay, a competent provision, of definite amount, in the case of early death.

THE NEW BUSINESS

Of the last two years averaged £1,100,000 per annum.

The Accumulated Funds now exceed £2,750,000.

Examples of Annual Premiums for £100 at Death (with Profits).

AGE.	25	30	35	40	45	50
Payable during life..	£1 18 0	£2 1 6*	£2 6 10	£2 14 9	£3 15 9	£4 1 7
Lmtd. to 21 payments	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

* A Person of 30 may thus secure £1000 at Death, by a yearly payment, DURING LIFE, of £20, 15s. OR, by TWENTY-ONE yearly payments of £27 18s 4d, being thus free of payment after age 50.

At age 40 the Premium "Ceasing at age 60," is, for £1,000, £33, 14s 2d., being about the same as most Offices require to be paid during the whole term of life.

Full STATEMENTS of PRINCIPLES will be found in the ANNUAL REPORTS.

CRITICAL NOTICES.

"This commentary is not less marked by accuracy and sound learning than by judgment, candour, and piety."—*Guardian*.

"It was a happy idea to think of familiarising the reader with those scenes which must ever have a peculiar interest for the Christian. We cannot all visit the Holy Land and see Bethlehem or Nazareth, the banks of the Jordan, or the shores of the Sea of Galilee, which were so often trodden by the Saviour's feet."—*Gardener's Chronicle*.

NOTE.

The Publisher of the CLACKMANNANSHIRE COUNTY REGISTER, in issuing his annual volume for 1877, gratefully acknowledges the favour with which the REGISTER has been received, from advertisers and the public generally, during the past Nineteen years of its existence.

To enhance the value of the REGISTER the publisher again accompanies it with a Map of the County, (identical with the Ordnance Survey Map) supplied by Messrs W. & A. K. Johnston, Edinburgh.

While the Sheets of the REGISTER have been passing through the press, there has occurred the demise of Dr John Duncanson, who died at his own residence, Linden House, on the 17th of December, in the 51st year of his age. The Alloa Society of Natural Science and Archæology have thus been deprived by death, in the course of 1876, of four leading members—namely, Mr John Fotheringham, Mr Allan Drysdale, Mr W. Bennet Clark, and Dr John Duncanson.

It has also to be noticed that since part of the sheets of the present REGISTER were thrown off, the vacancy occasioned by the lamented death of W. Bennet Clark, Esq., has been filled by the appointment of Tyndall Bruce Johnstone, Esq., advocate, Edinburgh, on whom the duties of Sheriff-Substitute of the county will now devolve. George Younger, Esq., brewer, Alloa, and James Moir, Esq., writer, as factor for the Earl of Mar and Kellie, have now been added to the list of Commissioners of Supply for the County of Clackmannan.

Introductory:—Biographic Sketch, (with Photograph by Mackie & Co., Photographers, Alloa) of the late W. BENNET CLARK, Esq., Sheriff-Substitute of the County of Clackmannan.

LOTHIAN'S ANNUAL REGISTER.

The Late W. Bennet Clark, Esq.,
SHERIFF-SUBSTITUTE OF CLACKMANNANSHIRE.

THE high esteem in which the late lamented W. Bennet Clark, Esq., Sheriff-Substitute of the County of Clackmannan, was held by the people of the

County generally has induced us in the present issue of the ANNUAL REGISTER for the County, to give a brief biographic sketch of Mr Clark, accompanying this, and enhancing its value by a small but faithful photograph of one whose memory will long be kindly cherished amongst us.

From a complication of troubles, accompanied with great pain, Mr Clark had been seriously unwell for some time in the course of last summer, and was twice visited by a medical gentleman of distinction from Edinburgh, but his demise took place on the evening of Friday the 21st of July, 1876—the event touching the heart of an entire community.

The late Mr Clark was a native of Edinburgh, and was born there in 1819. He was educated at the High School and University of Edinburgh; was called to the Bar in 1843, and early in November, 1852, he received from Mr Tait, the Sheriff of this county, the appointment to the office of Sheriff-Substitute, which he held for the long period of 24 years. The deceased Sheriff-Substitute all along maintained the reputation of a well-read and accurate lawyer, especially in his Interlocutory judgments—these being written with great ability, clearness, and accuracy, and frequently receiving the approval and commendation of the Court of Session. When he had an opportunity of fully applying his mind to questions either of law or fact, it was seldom indeed—partly from his quickness of perception—that he did not arrive at the true view. Unostentatious in private, thoroughly kind and considerate to the members of his Court, always sparing no pains to arrive at a right decision in causes brought before him, our late Sheriff-Substitute possessed and deserved the full confidence of the practitioners in his Court, as well as of the public. As a Sheriff, Mr Clark was scrupulously conscientious, and singularly

patient in hearing the observations of agents in the statement or argument of a case. His readiness at all times, in season and out of season, to meet agents, and indeed all who had anything to do with him, was most remarkable, and in the words of one closely connected with him in his labours, it was a pleasure to work with him. It is a remarkable fact that during his long official career, the late Sheriff-Substitute, such was his punctuality, had never to be waited on for a minute, and equally extraordinary was the silent patience with which he often waited on others. It is greatly to be feared that Mr Clark's over-activity and anxiety in the faithful discharge of his public duty have had no inconsiderable share in taking him so soon away from our midst.

But it was not alone in his public capacity as a Judge that Mr Clark laboured amongst us, for he interested himself to a very considerable extent in local institutions of different kinds. He long took an active part in the carrying on of the Alloa Ragged and Industrial School—an institution which has been of the greatest service to poor children in the town of Alloa; he was for a number of years President of the Alloa Bible Society; and, along with some other gentlemen of culture, Mr Clark contributed much to the prosperity of the Alloa Society of Natural Science and Archæology, in which he took a deep interest, and had been for several years its president. Mr Clark was at one time Captain of one of the companies of Clackmannanshire Volunteers, but he resigned this appointment some years ago.

The deceased Judge was called away in the midtime of his years and his usefulness to the silent land, but his name will long be fragrant in the town and in the court where he lived and laboured so long. Townhead congregation, by the death of Mr Clark, were deprived of a much respected and influential member.

THE FUNERAL.

The interment took place on Thursday, 27th July. At a quarter-past nine o'clock, in the residence of the deceased at Marhill, devotional exercises were conducted in separate apartments by the Rev. D. M'Lean, pastor of Townhead Church, Alloa, and the Rev. James Drummond of the Free Church, Clackmannan. Thereafter the remains of the deceased were conveyed to Alloa Railway Station *en route* to Edinburgh.

The train conveying the remains of the deceased gentleman arrived about twelve o'clock at the Haymarket Station, and the funeral *cortege* thence proceeded to the family burying-ground in the Dean Cemetery. The pall-bearers were the four sons of the deceased; Thomas Clark, Esq., A.R.S.A., Edinburgh; John Dalziel, Esq., W.S., Edinburgh; Rev. Dougal Macpherson, Free Church, Dunkeld; and Rev. Wm. Bennet, Moffat. The Rev. Alex. Whyte of Free St. George's, Edinburgh (of which Church the deceased gentleman was in early life a member and an office-bearer), offered up an impressive prayer before loving relatives deposited the remains in the grave.

On Tuesday, August 1st, a meeting of the Quarter Sessions for the County took place within the County Court-House. The Earl of Mar and Kellie, who occupied the chair, said:—Gentlemen—Before proceeding to dispose of the business for which this meeting is called, I think it right and fitting that we should place on record an expression of the deep sorrow and regret which I am sure we all feel for the sad and melancholy loss we have so recently sustained in the death of Mr Bennet Clark. We all of us knew him so well—some of you even better than I did—that I consider it unnecessary to enter on a record of his merits. Suffice it to say that during the time he held office here he always did his duty most conscientiously, and to the best of his ability,—that he was always to be found at his post, and continued at that post to the very last. I beg to move that a minute embodying the sentiments I have

expressed be entered in the book of the Justices of the Peace for this county, and that a copy of this minute be sent to Mrs Bennet Clark, as I am sure it will be a consolation to her to have this record of the esteem in which her husband was held by those with whom he was for so many years associated.

Mr Johnstone, in a few sympathetic words, expressed how deeply he felt the loss of Mr Clark, and how entirely he concurred in the remarks and motion of their noble Chairman.

The following motion was then unanimously agreed to:—
“That the Justices resolve to record their deep regret at the death of the late Mr William Bennet Clark, Sheriff-Substitute of the County, who had not only given the bench of Justices most efficient aid during his tenure of office, but had also secured their respect and esteem as a gentleman of the county.”

At the first meeting of the Sheriff Court, after the death of Mr Clark, Mr MacWatt, Procurator-Fiscal, in absence of Sheriff Monro, and on the part of the members of the Bar, and the other officials of the Court, expressed the feelings of sadness with which they assembled, when they found the late much-esteemed Sheriff-Substitute no longer in his place. The deceased was a man of many virtues both personal and professional. His unflinching courtesy, and his readiness to listen and inquire, made it a constant and positive pleasure to practice before him. His judgments, both oral and written, were always most carefully reasoned, and never failed to command respect. His private character was altogether estimable. He was a thorough good man. He took a lively interest in all religious, educational, and benevolent agencies, and found time to give them his active support. The members of Alloa Bar would never cease to remember him as an able, upright, and courteous Judge, and the community would long cherish his memory as that of a Christian gentleman of the best type.

At the meeting on 3rd October last of the members of the Alloa Society of Natural Science and Archæology, Dr Wilson, one of the vice-presidents, occupied the chair, and referred to their serious loss in the removal by death of their President, the late Sheriff Clark. Mr Clark's connection with the Society dated from its earliest year, 1863, and for the last four years he

was their respected President. I believe you can all testify to the faithfulness with which he discharged the duties of that office, and, to some extent, recall the interesting and instructive character of the communications which were occasionally read by him. His devotion to the Society was no superficial or merely temporary emotion, but it was an earnest, sincere, and governing motive of his life; in fact, his whole heart may be said to have been in it. He evidenced this, I think, by his constant attendance at our monthly meetings, and the active part he took in them, by his unwearied zeal and anxious desire to do what he could to advance the prosperity of the Society, and secure for it the position which it holds in the county. Since their last annual meeting they had to deplore the loss of three of their office-bearers—Mr Fotheringham, Mr Allan Drysdale, Sheriff Clark—each of them kind friends and warm supporters of the Society.

Dr Duncanson (secretary), having been asked to say a few words, said—Mr Clark succeeded Mr Matheson as President in 1872, having been elected at the annual meeting in that year. It was in the following spring that a suggestion was made that the members should endeavour to provide premises for themselves. Mr Clark entered heartily into the scheme, and gave a sketch of what he thought would be a suitable arrangement for premises for a Society such as ours. That sketch was generally approved of, and it was the basis of the admirable plans which were designed by the architects, Messrs Frame, and carried out so completely and well. We cannot, however, overlook the fact that it was Mr Clark who suggested the general design of the building as regards accommodation, and the interest he took in the carrying out of this scheme, both by way of getting up subscriptions, and also in the way of advising or directing, was very great. Mr Clark was always present at our meetings, unless prevented by some very urgent call of duty, and he has often attended them when, I am sure, he was exhausted by the toil of sitting on the bench all day, having only had time to go home and take a hurried meal. He was a man of a very highly cultivated mind, more so than many people knew. He had a certain delicacy of temperament, which led to a certain amount of diffidence, and prevented him exercising that self-assertion to which he was entitled from his talents. His general culture was very extensive, and his sympathies also. As a member of

the Society, I feel the loss a very great deal. I had very delightful intercourse with him, not only in this Society, but in other societies. By his death a blank has been caused which will not be easily filled up. I hope we will not allow this most melancholy and unlooked-for event to pass without learning one lesson. The lives of good men are of service if they give an example we can follow. I think we should express in our minutes our deep regret at the loss the Society has sustained in the death of Mr Clark.

In connection with the demise of the Sheriff-Substitute of the County, we can scarcely avoid making reference to the circumstance that Mr Clark's predecessor in office was his worthy father, William Clark, Esq., who died at Marhill on the 8th of November, 1863. Mr Clark was a native of Edinburgh, and was born in May, 1777. Contemporary with Lord Brougham, he was educated under Luke Frazer at the High School, and subsequently at the University of his native city. Having been apprenticed to the late Crawford Tait, Esq., W.S., he entered the Society of Writers to the Signet in 1803; and was thus a member of that learned body for the long period of 60 years. Mr Clark was appointed Sheriff-Substitute of Clackmannanshire in 1832, and he resigned that office in 1852, having for upwards of 20 years discharged its duties with eminent fidelity. Feeling the infirmities incidental to advancing age, Mr Clark spent the remaining years of his life in great retirement, and on the 8th of November, 1863, this good, upright, and venerable man, passed away from our midst in the 87th year of his age.

MR THOMAS CLARK, A.R.S.A.

It is somewhat noteworthy that the only brother of the late W. Bennet Clark, Esq., namely, Mr Thomas Clark, artist, died at Dundarroch, Aberfoyle, on the 7th October, 1876—thus not surviving his elder brother above three months. Mr Thomas Clark was educated at Dollar, and in early life having resolved to become a painter he went to reside in Edinburgh, where he became an assiduous cultivator of the landscape art, and was elected an associate of the Royal Scottish Academy in November 1865. His early death, after visits paid to the south of England and France to recruit his health, was very generally regretted.

BUILDING OPERATIONS.

While great activity has prevailed in Alloa and throughout the district generally in 1876 in connection with the building trades, this has been confined chiefly to the erection of new villas or dwelling-houses for private families, or tenements of dwellings intended for the working-classes.

The completion of the ALLOA BURGH SCHOOL has been the most prominent event of a public nature during the year. The foundation-stone of this building was laid with masonic honours by the Right Hon. the Earl of Mar and Kellie (Deputy Grand Master of the Grand Lodge of Freemasons in Scotland), on Friday, 8th October, 1875. Though not quite ready for occupation, the building was officially pronounced complete, and occupation of it was entered upon by Dr Bruce, his assistants, and pupils, on Monday, 4th September, 1876. The main front of this school stands back about 30 feet from the line of Bedford Place, and the space between the street and the school has been enclosed by a low parapet wall and a neat iron railing. The school, of which Messrs John Melvin & Son, Alloa, were the architects, has been designed to accommodate 400 scholars. The estimated cost was about £3600.

Not only, during the year 1876, has gas been introduced to Clackmannan, the nominal head town of the county, a spacious new mill has been built on the site of the old distillery there to meet the growing requirements of Messrs John Paton, Son, & Co., manufacturers, Kilneraigs, Alloa. As seen from the railway, the main building has a fine appearance, but it is only on closer proximity that a correct idea of its size can be formed. It is 150 feet long, 75 feet wide, and five storeys high—is built of brick with stone sills, and the walls are finished with a massive stone cope. The other buildings, namely, teasing, scouring, boiler, and engine-houses, are also very extensive. The stalk for the engine-house is 150 feet high, and 18 feet diameter at the bottom. The engine is a powerful horizontal (expansion and condensing), made by Turnbull, Grant, & Jack, Glasgow. There will be twelve sets of carding machines, with mules, &c., giving employment in course of time to a considerable number of operatives.

His grandson was the celebrated Sir Ralph Abercromby, whose widow, after her husband's death at the battle of Alexandria, was created Baroness Abercromby of Tullibody ; the title descended to her son, who was grandfather to the present Peer.

ZETLAND, EARL OF, THOMAS DUNDAS, 1794 Baron Dundas of Aske in the Peerage of Great Britain; 1838 Earl of Zetland in that of the United Kingdom; 1762 a Baronet; Lord-Lieutenant of the North Riding of Yorkshire; *b.* 1795, *suc.* his father, 1839, *m.* 1823 Sophia-Jane, daughter of the late Sir Hedworth Williamson, Bart. He has been succeeded by his nephew, Laurence Dundas, Esq.]

The Dundases have produced a series of men eminently distinguished for their public services. The chief of the House is James Dundas, Esq. of Dundas. Sir Laurence Dundas, the founder of this branch, purchased the Clackmannan estate from the family of Bruce about 1766.

ELGIN AND KINCARDINE, EARL OF, K.T., G.C.B., VICTOR ALEXANDER BRUCE, Baron Bruce of Kinloss, 1603; Baron Bruce of Torryburn, 1647; Earl of Elgin, 1623; Earl of Kincardine-on-Forth, 1647; Baron Elgin in the United Kingdom, 1849; and chief of the Bruces; *b.* 1849, *suc.* his father, 1863; educated at Eton. The late Earl who died in 1863 was formerly M.P. for Southampton; Governor-General of Jamaica from March 1842 to Aug. 1848; Governor-General of Canada from Sept. 1845 to Sept. 1854; Lord-Lieutenant of Fifeshire. In 1858 his Lordship was selected for a special mission to China, and in 1858 he was appointed Postmaster-General. In 1862, his Lordship was nominated by her Majesty, Viceroy of H.M. Indian Empire. He married, first, Elizabeth Mary, only child and heiress of Mr Charles Lennox Cumming Bruce, of Kinnaird, M.P. for Elgin, by whom he has one daughter, Elma, *m.* in 1864 to the Hon. Thomas John Howell Thurlow. His Lordship married, secondly, in 1846, Lady Maria Louisa

Lambton, daughter of the Earl of Durham, and had a son Victor Aléxander, the present Earl *b.* 1849, *m.* on 9th November, 1876, Lady Constance Mary Carnegie, *b.* 1851, daughter of the Right Hon. the Earl of Southesk, K.T.; Hon. Robert, *b.* 1851; Hon. Charles-Alexander, *b.* 1853; Hon. Frederick-John, *b.* 1854; Lady Louisa Elizabeth, *b.* 1856. *Seats*, Broomhall, Fifeshire, and Culross Abbey.

The family of Bruce, of which his lordship is chief, were descended from an illustrious Norwegian race, who married with the daughters of the Kings of Norway and Scotland, and Grand Dukes of Russia, long before the conquest of Normandy, in which the great-great-grandfather of Bruce, then Earl of Caithness, assisted. His grandson accompanied his kinsman, William, Duke of Normandy, in the invasion of England in 1066. The descendant of this Norman Baron married the heiress of Annan, Lord of Annandale, and thus became settled in Scotland. Through the marriage with the heiress of David, Earl of Huntingdon (who was nephew of Malcolm, King of Scotland). Robert Bruce succeeded to the Crown of Scotland. His son, King David Bruce, in 1358, confirmed to his cousin, Robert de Bruce, the Castle and Barony of Clackmannan. Fifth in descent from this Sir Robert, was Sir David Bruce of Clackmannan, who left three sons—John of Clackmannan, whose line became extinct in 1773; Sir Edward of Blairhill, &c., ancestor of the Earl of Elgin; and David, ancestor of the Bruce of Kennet. The House of Bruce is also represented by the Marquis of Ailesbury and the Duke of Buckingham, to whom the Barony of Bruce of Kinloss was allowed three years ago.

LANSDOWNE, MARCHIONESS OF, EMILY JANE, eldest daughter of the late Baroness Keith (and Nairne), born 16th May 1819, married in 1843 the late Marquis of Lansdowne, and has issue Henry Charles Keith, present Marquis, born 1845, and three other children. It is presumed that her Ladyship is Baroness Nairne, 1681, in the peerage of Scotland, that Barony having been assumed by the late Lady Keith on the death of William, Lord Nairne, in 1838. The English and Irish Baronies of 1803 and 1797 became extinct on the death of Lady Keith in 1867. *Seats*—Meiklour, Perthshire, and Aldie Castle.

OSBORNE-ELPHINSTONE, LADY WILLIAM GODOLPHIN. The Hon. Georgina Augusta-Henrietta Elphinstone, younger daughter of the late Viscount Keith by his second marriage, married—firstly, 1831, the Hon. Augustus Villiers, second son of the Earl of Jersey, who died 1837; secondly, 1870, Lord William Godolphin Osborne, brother to the late Duke of Leeds. *Seat*—Tullyallan Castle.

The first Lord Keith was a distinguished naval commander, whose Barony was in remainder to his eldest daughter and her issue male, in default of male issue; his Viscounty expired with himself. The first Lord Nairne was a Lord of Session, who secured his title, with remainder to the husband of his daughter, namely, Lord Wm. Murray, son of the first Marquis of Athole; the title, after having twice suffered attainder and restoration, is believed to have descended through the second son of Lord Wm. to his great-great grand-daughter, the Marchioness of Lansdowne.

BALFOUR OF BURLEIGH, BARON (Bruce-Balfour). 1606 Baron Balfour of Burleigh; attained in 1716 in the person of Robert, fifth Lord. The representation was long claimed by the late Robert Bruce, Esq., of Kennet, the heir of line; also by Francis Balfour Esq. of Fernie, the heir male of the body of Lord Burleigh. After Mr Bruce's death, his son, Alexander Hugh Bruce, Esq., prosecuted the claim. Accordingly, by a judgment of the House of Lords, in July, 1868, Mr Bruce was declared to have made out his claim as the Baron Balfour of Burleigh, and the reversal of the attainder was applied for. This petition was granted on 19th March 1869. The present Baron was born in 1849, educated at Eton, and Oriel College, Oxford, succeeded his father in 1864, as 17th Laird of Clackmannan, from Thomas de Bruce, who obtained a charter of the lands of Kennet from his father, Sir Robert de Bruce of Clackmannan, which charter was confirmed by King Robert III. in 1399. The Bruces of Kennet ended in an heiress in the person of Margaret, only child of Robert Bruce of Kennet, who married her cousin, Archibald Bruce, son of David Bruce, of Green, who was third son of Sir David Bruce of Clackmannan, Knt. David's grandson married the daughter of Lord Balfour of Burleigh, and through that marriage the late Mr Bruce of Kennet claimed the Barony. Robert Bruce, the son of this marriage, was Sheriff of Clackmannanshire, and afterwards raised to the Bench as

Lord Kennet. His grandson, the late Robert Bruce Esq. of Kennet, was for some time a Captain in the Grenadier Guards, and served with that regiment at Waterloo. He was also M.P., and for several years Vice-Lieutenant of this county and died in 1864, leaving a son, the present Lord Burleigh, born 13th January, 1849; *m.* November 21st, 1876, Lady Katherine Gordon, youngest sister of the present Earl of Aberdeen, and consequently daughter of George, fifth Earl, and grand-daughter of the fourth Earl, who was a distinguished statesman, filled various public offices, and was First Lord of the Treasury from 1852 to 1855,—also a daughter, Henrietta Jane, who was married on 26th November, 1874, to Claud Hamilton, Esq. of Preston-Hall, Midlothian.

Gentry of Clackmannanshire.

JOHNSTONE, JAMES, Esquire of Alva, son of the late James Raymond Johnstone of Alva, by Mary, his wife, sister of Sir Montague Cholmeley, Bart., of Earton, county of Lincoln; born 1801, succeeded 1830, married first, 1846, the Hon. Augusta Anne, sister of Lord Grantly; she died 1859. Mr Johnstone married secondly, 1862, Sarah Mary, daughter of Lieut.-Colonel L'Estrange of Maystown, King's County; and has issue by his first marriage John Augustus James, born 1847, Caroline; and by his second marriage, James Henry L'Estrange, born 1865, and two other sons. Mr Johnstone was educated at Rugby, and called to the Scotch Bar in 1824. He is D.L. and J.P. for the counties of Clackmannan, Stirling, and Selkirk, and was M.P. for the United Counties, 1851-7.

This is a younger branch of the Johnstones, Baronets, of Westerhall. Mr Johnstone's grandfather, who purchased the estate of Alva, was an officer in the East India Company's Service, and, having acquired a considerable fortune, returned to Scotland, and was for some years an M.P. He died at Alva in 1795. This gentleman was the fourth son of Sir James Johnstone, M.P., the third Baronet of Westerhall.

JOHN TAIT, Esquire, Advocate, son of Crauford Tait, Esquire of Harviestoun, by Susan, fourth daughter of Sir Islay Campbell, at one time Lord President of the Court of Session. Mr Tait is brother to the Archbishop of Canterbury.

JAMES ORR, Esq. of Castle Campbell and Harviestoun, son of the late Francis Orr, of Glasgow, by Mary, daughter of John Glen, of Lumloch, County of Lanark. In 1874 he succeeded his brother, the late Sir Andrew Orr, who was a Magistrate for the Counties of Lanark and Clackmannan, was a D.-L. of the latter county, and who was Knighted when Lord Provost of Glasgow, in 1858.

MOIR, JAMES M'ARTHUR, Esquire of Hillfoot, born 1844, second son of the late John M'Arthur Moir, who died 16th December, 1871, in the 74th year of his age, and was succeeded by his eldest son, Mr John M'Arthur Moir. Mr M'Arthur Moir, junr., died unmarried, amid general regret, on 4th December, 1872, aged 30 years, and he again is succeeded by his brother, the present Mr James M'Arthur Moir. Besides the Hillfoot estate, parish of Dollar, there are also those of Milton, county of Argyle, and Lawhill, county of Perth.

RAMSAY, ROBERT BALFOUR WARDLAW, of Whitehill and Tillicoultry, son of Robert Wardlaw Ramsay, by Ann, second daughter of Alex. 6th Earl of Balcarres, born 1815, succeeded 1837, married 1851, Lady Louisa-Jane, third daughter of George, 8th Marquis of Tweeddale, and has, with other issue, a son, Robert George, born in 1853.

Mr Wardlaw Ramsay, educated at Haileybury College, was formerly in the East India Coy.'s Service. He is a Deputy-Lieutenant and J.P. for the county of Clackmannan, and also for Midlothian. This family is descended from the very ancient House of Wardlaw Barns of Tarrie, which made a distinguished figure in the early history of Scotland. Mr Wardlaw Ramsay, father of the late Captain Robert Wardlaw, was the son of Captain William Wardlaw, R.N., by Elizabeth his wife, daughter and heiress of Robert Balfour Ramsay, whose mother was Ann, daughter and heiress of Sir Alexander Ramsay, the 3rd Baronet of Whitehill.

Lady Charlotte Erskine by her deed of settlement, of 27th December, 1787, conveyed to Charles Hope, and other Trustees, her estate for objects, among which were the founding of an Endowment for an Assistant-Minister, and provision of Church Accommodation of the Parish of Alloa.

The Erskine Mortification consists of two parts:

- (1) 246 Sittings in the Parish Church—the Trustees of which Trust are the Minister and Kirk Session; and the amount drawn from which for year 1871-72, was £48 2s 5d.
- (2) A bond for £780 17s 5d sterling, which is invested in heritable security, and a sum of £96 lying in Bank at interest,—the Trustees of which are the Trustees of Lady Charlotte Erskine; and which yielded for the year 1871-72 £32 9s 8d.

II. THE JOHNSTON MORTIFICATION.

Robert Johnston, merchant in Alloa, by a mortification and disposition, executed by him of date 29th May 1739, made over to the Minister of Alloa, the elders of the said parish, and treasurer for the time, and their successors in office, certain funds "for the encouragement and subsistence of a pious man, licensed by the present Established Church of Scotland, to help and assist the Minister in preaching the Gospel, and catechising and visiting the sick of said parish, the said Assistant being elected by the Minister, elders, treasurer, and a majority of the heads of families, of the said parish of Alloa in communion with the Established Church."

III. THE DUNCAN MORTIFICATION.

By a Trust Disposition and Settlement, of date 12th September, 1866, Miss Catherine Duncan bequeathed "to the Kirk-Session of the Parish Church of Alloa, the sum of two hundred pounds sterling in trust, and for the uses and purposes following, viz., in order that the said sum shall be invested in heritable security, or in the Government Funds, as soon as convenient, and that the annual interest or produce thereof shall be paid half-yearly to the Assistant-Minister in said Parish Church for the time being, as an addition to his salary or stipend."

IV. THE ORR MORTIFICATION.

Miss Janet Orr, by her last will and testament, appointed her Trustees to pay over to the Minister, elders, and kirk treasurer of the Parish of Alloa, the sum of three hundred pounds sterling, "to be kept constantly invested in first-class security, . . . and the annual income and produce of the said sum shall each year be paid to the Assistant-Minister of the parish of Alloa for the time being, in aid of his other emoluments, and as incentive to him to be diligent and faithful, . . . and this annual income shall always be paid to the Assistant-Minister who is in receipt of the income of Lady Charlotte Erskine's mortification."

The endowment for the Assistant is thus as under :

The County of Clackmannan, it may be appropriate here to remark, occupies the anomalous position of having parishes within its circumference politically, which it does not embrace judicially. We have, for example, Alva in Stirlingshire, and Kincardine and Culross in Perthshire, while politically all these are incorporated with the County of Clackmannan, which unites with Kinross-shire in returning a member to Parliament. Even geographically, the parishes specified are incorporated with Clackmannanshire, but the parties more immediately interested have hitherto expressed their desire for a continuance of the present anomalous arrangement.

The charge for membership is only 2s 6d per annum. Casual visitors are charged one penny. The gift of the old but commodious U.P. The Stirling, Alloa, and Kincardine Steamboat Company having been dissolved in the beginning of 1874, their two steamers, the *Victoria*, and the *Prince of Wales*, were exposed to sale by public auction, and became the property of rival companies. Both steamers plied during the summer of 1874 between Stirling, Alloa, Leith, and Granton, calling at all the intermediate ports. During the summer of 1875, the *Victoria* was the only steamer on the passage, but in the spring of 1876 two new and powerful saloon steamers, the *Lord Elgin* and *Lord Mar*—the property of the Forth River Steam Company—were placed on the passage, and gave a great impetus to the passenger trade. M. P. Galloway, Timber Bush, Leith, manager.

A steamboat of considerable size and power (the Countess of Kellie) has been placed on the Ferry at Alloa, and at present this steamer leaves the North side every hour, and the South side twenty minutes past every hour in summer, from 7 A.M., till 8 P.M., and in winter from 7 A.M., till 6 P.M. E d u c a t i o n a l .

By the "Education (Scotland) Act, 1872," the educational system of Scotland has been greatly remodelled. In every parish or "school district" in Scotland, a School Board has been established, consisting of fit and proper men chosen from and elected by the qualified householders—*i.e.*, owners and occupiers of lands, &c., of £4 and upwards annual value—and whose tenure of office is for three years. As to powers, the School Board supersedes the heritors and ministers in all powers, obligations, and duties vested in or incumbent on them in regard to parish schools; also supersedes town councils in all powers and duties vested in them in regard to burgh schools. As to duties, the School Board has to supply any deficiency of public school accommodation in any parish or burgh; become vested in all public schools, whether existing at passing of the Act or subsequently established; and to maintain and keep efficient every school under their management. The School Board may accept of transference of existing denominational or subscription schools, with consent of Education Board of Scotland. But out of sight the most important desideratum supplied by the Education Act is that afforded by the "compulsory clause," whereby the School Board is empowered to require that all children between the ages of 5 and 13 be sent to school. To meet the expenditure attendant upon the proper working of the Act, the School Board is also empowered to cause to be imposed a "school rate," which shall meet such expenditure.

Such are the leading features of the Scotch Education Act; and it now remains for us to come to local matters, and to give a list of the members and other information as to the several

In 1857, a firm in Alloa obtained from the Honourable Board of Customs the approval of premises held by them on lease at the Shore, as a Bonded Warehouse—the trade and port of Alloa having previously suffered from want of bonding accommodation. The lease of this bonded warehouse is now held by Mr H. Brinkmann, who receives goods liable to duty on importation, at the same rates as at other ports; and also British plain spirits, now allowed to be warehoused for duty under “The Warehousing of British Spirits Bill, 1864.” The warehouse is of course for the accommodation of all parties who may wish to secure their Dutyable Goods under Bond.

A L L O A.

ALLOA.—Kennedy, author of “Glenochil,” alludes to the probability of Alloa having derived its name from *Aloa*, an autumnal feast observed by the Romans; and another authority says that the name is supposed to be indicative of the site of the Allana of Ptolemy. In a charter granted to Sir Thomas d’Erskine, ancestor of the Earl of Mar, by King Robert Bruce, in 1315, this town is called Alway. Dr Jamieson, the author of the Scottish Dictionary, and who, by the way, was educated at Alloa, and through his mother, a grand-daughter of Alexander Bruce of Garlet, was also connected with this county, states that the most probable etymology of the name was from *Aull Waeg*, signifying the way to the sea or the sea-way.

The late Mr Coventry, Devonshaw, who was an accomplished Gaelic scholar, derives the word “Alloa” from *Aal* a Church and *Oigh* a maid—signifying a Church dedicated to the Virgin.—(See Statistical Account.)

The principal landowners and heritors in the parish are the Earl of Mar and Kellie, Lord Abercromby, and the Earl of Mansfield. The Earl of Zetland has property in the county.

D O L L A R.

DOLLAR—derived from *dal*, a valley, and *ard*, a hill. This parish is famous for its institution, founded by John MacNab, who was born at Dollar of poor parents, settled for a time in business in London, and afterwards realised a large fortune as a West India merchant, leaving £90,000 for the foundation of this school. The principal antiquity in the parish is the ruin of Castle Campbell, which was in the possession of the family of Argyle so far back as the year 1465, and continued in their possession till 1805, when the Lordship of Campbell was purchased by an adjoining proprietor, Crauford Tait, Esq. of Harviestoun. Both these estates became the property by purchase of Sir Andrew Orr of Glasgow, in 1859. On the 19th April, 1874, Sir Andrew died at Hartville, Bridge of Allan, and was interred on the following Saturday in the Glasgow Necropolis. John Knox preached for several days at Dollar; and Thomas Forrest, commonly called the Vicar of Dollar, suffered martyrdom at Edinburgh in 1538. A romantic road to Castle Campbell—of which Mr Bradshaw, Dr Strachan, and the late Mr Stalker were the chief promoters—was opened,

and formally inaugurated, amid great rejoicings at Dollar, on 26th May, 1865.

The principal Landowners and Heritors are James Orr of Harviestoun, William James Haig of Dollarfield, James M'Arthur Moir of Hillfoot, and Mrs Millar of Sheardale.

CLACKMANNAN.

CLACKMANNAN is a name of unknown origin and antiquity:—From a careful review of old Royal Charters and Deeds, it is evident, that the name, in its early stages, did not refer to a Castle or Tower, but to a DISTRICT of country—now known as Clackmannanshire, which district, along with that of Kinross, was anciently connected with FOTHERIFF—also a name of obscure origin, but now known as the western district of Fife.

TILLCOUNTRY.

The present Landowners and Heritors are R. B. Wardlaw Ramsay, Esq.; James Orr, Esq., of Castle Campbell; Earl of Mansfield; James Johnstone, Esq. of Alva; Jas. Blair, Esq., &c.

The cleansing properties of these Pills soon produce a wonderful change in the constitution, removing all excess of bile, headache, palpitation, pains after eating, and giddiness. They restore the appetite, clear the complexion, and improve the general health.

These truly formidable and dreaded diseases, with nocturnal spasms, nervous twitchings, muscular cramps, and sciatica, will yield, when treated by this

ADVERTISEMENTS.

Ointment. In no cases is it more important to have it thoroughly and effectually conveyed through the pores of the skin to the affected parts, where it will bring its soothing influence to bear and produce ease, comfort, and security. The Pills should also be taken in appropriate doses to lessen the inflammation and to purify the blood.

Bad Legs, Bad Breasts, Old Wounds, and Ulcerations of all kinds.

The application of this Ointment heals in a remarkable manner every kind of Ulceration, softens the stiff or contracted tissues, causes "proud" flesh to disappear, and foul and loathsome discharges to become converted into healthy healing surfaces; and these effects are not temporary, but are radical and permanent.

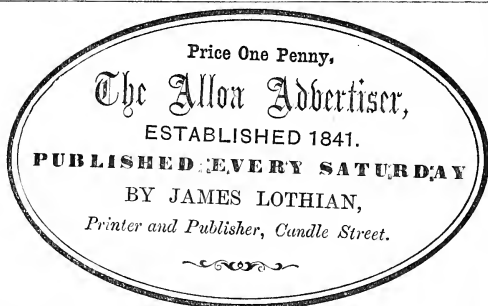

Dropsical Enlargements, Swelled Legs, and Varicose Veins.

In the reduction of all Glandular Swellings no remedy equals the application of this Ointment; it prevents the formation of extraneous growths, and is an invaluable remedy for checking all Chronic Discharges, which are so troublesome to many persons.

The Ointment and Pills are sold at Professor HOLLOWAY'S Establishment, 533 Oxford Street, London; also by nearly every respectable Vendor of Medicine throughout the Civilized World, in Pots and Boxes, at 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each. The smallest Pot of Ointment contains one ounce; and the smallest Box of Pills four dozen.

Full printed directions are affixed to each Pot and Box, and can be had in any language.

N.B.—Advice can be obtained, free of charge, by applying at the above address, daily, between the hours of 11 and 4, or by letter.

THE LIFE OF CHRIST.

BY THE REV. F. W. FARRAR, D.D., F.R.S.,
Canon of Westminster, and Chaplain in Ordinary
to the Queen.

“Sincere, candid, learned, eloquent, devout, Dr Farrar has produced a book fitted alike for the general reader and for the scholar—a book which throws a flood of light upon the Gospel narrative, harmonising here, explaining and illustrating there, and in which, moreover, difficulties alleged or real are grappled with in a manly, conscientious, Christian spirit. If I make this special reference to Dr Farrar’s volumes here, it is because I can conceive few more appropriate gifts at this coming Christmas-tide, and because I think that those of my readers who take the hint will feel thankful to me that I gave it.”—*Western Morning News.*

SHORT STATEMENT OF PRINCIPLES.

THIS SOCIETY differs in its principles from any other Office.

INSTEAD of charging rates admittedly higher than are necessary, and afterwards returning the excess, or a portion of it, in the shape of Periodical Bonuses, it gives from the first as large an Assurance as the Premiums will with safety bear—reserving the Whole Surplus for those who live long enough to secure the Common Fund from loss.

A Policy for £1200 to £1250 may thus in most cases be had for the Premium usually charged for £1000 only ; while, by *reserving* the surplus, large additions may be expected on the Policies of those who live to participate. In a few cases, Policies sharing at the whole four divisions have already been doubled.

Example of Annual Premiums for £100 at Death (with profits)

AGE.	25	30	35	40	45	50
During Life.....	£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7
21 Payments.....	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

The NEW ASSURANCES (entirely Home Business) in each of the last three years exceeded ONE MILLION Sterling.

The ACCUMULATED FUNDS (increased last year by £227,000), now exceed THREE MILLIONS STERLING.

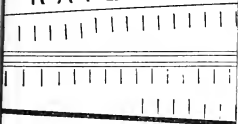

The GROWTH OF THE FUNDS must after all be the best practical test of prosperity. *“The RATIO in which, for several years past, our Funds have increased, in proportion to our Income, has greatly exceeded that of any other Office in the Kingdom.”*

LIFE ASSURANCE COMPANY.

ESTABLISHED 1825.

THE STANDARD COMPANY has long taken the lead in Simplifying the Conditions and Liberalizing the Contract of Life Assurance, thereby giving greatly increased Security to the holders of the Company's Policies, an advantage of especial value when the Assurance is intended to be assigned or to form the basis of pecuniary obligations. The marked success which has attended the progress of the Company is, no doubt, due in a great measure to the liberality of its dealings.

A STANDARD Policy is Unchallengeable after five years on any ground whatever connected with the original documents proceeding on which the Assurance was granted, age having been proved.

recommendation: Figures speak for themselves.*

I am truly happy to lay the above before the Members of this Society, and the Working Classes generally in the surrounding District, and hope that those who are not already members will not lose the opportunity of at once securing, while in health and life, a sum sufficient for their Interment when Death occurs, and not leave the expenses of their Burial on the cold shoulder of charity, or to be defrayed by their relatives.

For the sum of $\frac{1}{2}$ d, 1d, 2d, or 3d, or 4d, &c., Weekly, Members at Death will leave behind them an amount sufficient for the expenses of their Burial.

NOTE.

The Publisher of the CLACKMANNANSHIRE COUNTY REGISTER, in issuing his annual volume for 1878, gratefully acknowledges the favour with which the REGISTER has been received, from advertisers and the public generally, during the past *Twenty* years of its existence. The first publication of this County Annual, namely for 1859, extended to only 50 pages. The present issue for 1878 (including space occupied with advertisements) extends to 200 pages—the price remaining the same.

To increase the interest in the present issue of the REGISTER, the Publisher has attempted a TYPOGRAPHICAL PLAN of the PUBLIC PARK, which the people of Alloa have just now acquired. From the care bestowed in the composition of this Plan, which those connected with the Typographical Art will best be able to appreciate, it is hoped that the value of the publication will be thereby enhanced.

LOTHIAN'S Annual Register.

WE purpose devoting as usual a few introductory pages of the COUNTY REGISTER to chronicling some of the more important events which have taken place in our midst during the bygone year. These have been in the main of a somewhat saddening kind, and we begin with the most saddening of all, namely, those ever-memorable

FEARFUL FLOODS IN DEVON VALLEY.

These occurred in the last week of August, and brought with them much ruin, desolation, and death to the Hillfoots,—but more especially in Tillicoultry, where the deluge reached its most alarming height and violence. Never before had our sister town been visited by such a calamity. About eight o'clock in the morning of the 28th August, a great darkness overspread the sky, and the rain, at that hour fearfully heavy, came down in still denser volume. For a while the whole face of the hills above Tillicoultry presented a scene of strange wildness. They were white with tumbling cataracts. It was a sight never to be forgotten. Foaming torrents rushed headlong down the beds of the mountain burns—every runnel had become a river, and every hollow the channel of a stream. With a suddenness that startled all, the water rose high above the height it attains in a spate, and overflowed its well-built banks. Faster than people could spread the news, the invading waters, still running higher, rushed down Mill Street,—more familiarly known as the Burnside,—sending streams into the streets that lead off Mill Street, and causing High Street, from one end to the other, to look like a brawling river. In its mad course, the water carried with

it boulders of more than a ton weight, which crashed against each other and rolled down Mill Street, and in the channel proper, with a muffled noise that resembled distant canonading. Soon the strong stone Head o' Town Brig yielded to the force of the torrent, with its artillery of boulders, and the water rushed angrily through the breach—rushing from side to side of Mill Street, filling up its channel in some places with huge rocks, stones, and debris, the street resembling a foaming, surging river, 70 or 80 feet wide, careering madly down the slope, the houses and factories serving for banks. At various places, at the breakfast hour, strong men made themselves useful in carrying men, women, and young boys and girls, across. All the houses and shops, though barricaded, were flooded, and the factories were closed for the day. The sight of wrecked looms, pirns, “bobbins,” and household furniture, seen drifting by, was sad to behold, but when it became known that dead bodies had been carried down by the water, there was grief added to the feelings of sadness.

The Castle Mill occupies ground on both sides of the burn, and standing as it does at the mouth of Tillicoultry Glen, it was the first to meet the shock of the advancing deluge. About nine o'clock, as the waters increased in height, Mr Wm. Hutchison, the senior partner of the firm of Wm. Hutchison & Co., was standing at the end of a wooden bridge that joined the two portions of the premises. At the other end of the bridge, was a young woman, Isabella Miller by name, one of his workers, and close beside her, with his hand on her shoulder, stood a dyer named William Stillie. They were in the act of pointing to something up the street, when, in the twinkling of an eye, the bridge was swept away, and the three who were on it were engulfed in the angry waters. In sight of paralyzed spectators, the three were whirled rapidly down the stream. About two o'clock the body of Mr Hutchison was discovered in the channel of the burn, more than half a mile below the scene of the disaster—the body of Isabella Miller was not recovered till the following Saturday afternoon, in the north-west field of Glenfoot. The dyer, Stillie, made a miraculous

escape, having been violently and rapidly carried along the stream 50 or 60 yards, where he got jammed right in a corner against the projecting wall of a factory, the waters pressing against the building with strong force, and at this point he was rescued by seizing firm hold of an iron stanchion.

In Alloa the flood was only a heavy spate; in Tullibody and Cambus the Devon overflowed its banks and submerged several fields, doing much damage to the crops; in the carse of Clackmannan the crops suffered materially by heavy rains, whole fields of corn having been laid; at Alva, twenty deep streams of water came pouring down the hills,—Silver Glen stream doing the chief damage,—roads were torn up to the depth of several feet, while many tons of debris accumulated to a great height. Dollar had nearly as much cause to remember the flood as Tillicoultry had. The channel of the Dollar Burn from the mouth of Castle Campbell Glen to the Devon is not so steep, nor the current so rapid, as is the case with the Tillicoultry Burn. Still, a flood of unprecedented volume and force swooped down suddenly on the fair town, strewed the banks of the burn with huge stones, opened new channels for the stream, undermined the foundations of houses—ruining two and threatening others. The insatiable flood burrowed into the foundations of the villa, known as Elgin Place, belonging to Mr Robertson. The inmates were at breakfast at the time, and were warned to leave. Scarcely had they done so when the front wall fell down. A large quantity of the furniture floated away. The wrecked rooms were exposed to view, presenting a sad picture. At the railway station great damage was done, and railway communication betwixt Dollar and Tillicoultry was interrupted for several days. The romantic Glen of Dollar was seriously damaged—the beautiful walks being in many places completely washed away.

No such flood has hitherto happened in the memory of man, as that which brought such sudden destruction and death in August last to the peaceful towns at the foot of the Ochils. Thousands of visitors flocked to witness the disasters and the scenes of the ruinous rainfalls.

THE LATE DR BROTHERSTON.

In the present issue of the REGISTER we are called on to record the deaths of two or three gentlemen who were well known and much respected amongst us. The first we shall notice is the sudden, unexpected, and lamented demise of Mr PETER BROTHERSTON, F.R.C.S., Ed., which event occurred at his residence in Mar Street, Alloa, on the morning of Friday, the 20th of April last. It is not too much to say, that among the provincial surgeons of Great Britain he stood in the highest rank.

He was born in 1820, and was the son of Rev. P. Brotherston, minister of the Established Church in Alloa. He was for a time under the tuition of Dr Bruce, Alloa. When about sixteen years of age he was apprenticed to Dr M'Gowan of Alloa. He afterwards studied in Edinburgh.

There is no doubt that, while acquiring fame as a surgeon was from the first the highest object of his ambition, his active mind had room for other pursuits; and the archives of the Archæological Society of Alloa, started in 1863, and of which he was chosen vice-president in the first year of its existence, can show how useful he could make himself in that department of science. From boyhood he showed a warm predilection for natural history.

About four years ago he began to be subject to occasional attacks of asthma, which incapacitated him for the time from work. He went to San Remo on the 20th January, and returned on the 24th May, 1875, much improved in health, and hopeful of a complete change for the better; but after a time the old symptoms began to show themselves, and it was evident to all around him that he had serious apprehensions about himself. At length, on the morning of the 20th April, he was found dead in his bed, his head resting in a placid manner on his hand. Subsequent medical examination showed extensive fatty degeneration of the heart. By his death his native town has lost one of its most useful and valued citizens; his family, a kind and loving husband and father; his friends, a true and most obliging associate; and Alloa Hospital, its chief promoter and professional benefactor.

THE LATE DR DUNCANSON.

Just as the sheets of the REGISTER for 1877 were passing through the press, the death took place of our loved and valued townsman, Dr John Duncanson, so that no opportunity was afforded us of a brief tribute "In Memoriam." His death took place at Linden House, Alloa, on the 17th of December, so that he predeceased his friend Dr Brotherton by four months. He died at the early age of 51 years. Having been for a year previously suffering much from debility, he went in search of health to Tignabruaich, but returned to Alloa without any abiding improvement.

Dr Duncanson was the posthumous child of Mr Alex. Duncanson, a well-known shipbuilder in Alloa, and proprietor of the Graving Dock. He was educated in Alloa under Dr Bruce, and at Tillicoultry under Rev. Archd. Browning. He completed his classical education at St. Andrews, and his medical curriculum at the University of Edinburgh. In 1849, he graduated as a Doctor of Medicine at St. Andrews, and thereafter he travelled much abroad. He paid visits to the Continent, to the Canadas, and to North and South America, and these visits he embodied in most interesting lectures which he delivered gratuitously not only to numerous Alloa audiences, after taking up his abode in our town, but to audiences in surrounding towns and villages. He contributed papers to several periodicals and newspapers, and the ALLOA ADVERTISER reaped largely the benefit of his fluent pen. In 1861 he published a volume "The Providence of God Manifested in Natural Law."

Dr Duncanson was a member of most of our public Boards, for he had time at his command and he had ample intelligence. He was also a member of many committees, and he took an especial interest in the Alloa Industrial School. He was also a chief promoter and leading supporter of the Alloa Society of Natural Science and Archæology. He was an ever genial and true friend, and all who knew him will long have a kindly remembrance of him.

Our county likewise suffered a great loss last year by the lamented death, on 26th Novr., of Dr John M. Strachan, Dollar, in the 67th year of his age.

THE LATE SHERIFF TAIT.

At his residence, 13 Great Stuart Street, Edinburgh, on the 22nd of May, 1877, John Tait, Esq., advocate, formerly Sheriff of the counties of Clackmannan and Kinross, and afterwards of Perth, died, in the 82nd year of his age. It may be here worthy of observation that in the COUNTY REGISTER for 1877, we were called on to record the demise of William Bennet Clark, Esq., who, in 1852, received from Sheriff Tait the appointment of Sheriff-Substitute of the county of Clackmannan, so that, at the date of his death (21st July, 1876), Mr Clark had held his appointment 24 years. Mr Clark died in the 57th year of his age, and his early and unexpected departure from the midst of a county which loved him, touched the hearts of the whole community.

In these pages a brief notice of the late Sheriff Tait is called for. He was well and intimately known over the whole county, as for the long period of 36 years (namely, from 1829, till July 1866, when he accepted the appointment of Sheriff of the county of Perth), he ably, faithfully, and with great success, discharged the duties of the high and important office of Sheriff of the counties of Clackmannan and Kinross. When his intention became known to accept the Sheriffdom of Perth, he was, on the 8th of December, 1865, presented with his portrait, and entertained to a public dinner. The presentation of the portrait took place in the County Court-house, Alloa, where it was handed over to the Commissioners of Supply, and it has since occupied an excellent position in the Court-house. At the dinner in the Corn Exchange, James Johnstone, Esq. of Alva, who presided, in proposing the toast of the evening gave a most interesting sketch of the honoured career of Mr Tait, with whom he had been on terms of closest friendship from his earliest years. Having referred to their guest in his official capacity, he alluded to him as a member of society, as a gentleman,—his urbanity, his kindness of feeling, and his true-heartedness as a friend. “No man,” said Mr Johnstone, “stands before his fellows

with a more unblemished character than my friend." Mr Johnstone then presented to Mr Tait a beautiful silver cup and claret jug bearing the following inscription :—

PRESENTED TO JOHN TAIT, ESQUIRE,

SHERIFF OF CLACKMANNANSHIRE,

By his Friends in the County,

At a Public Dinner in Alloa, on 8th December, 1865,

(*James Johnstone, Esq. of Alva, Convener of the Connty, in the Chair*),—

On which day he was also presented with his PORTRAIT,

Painted by J. Graham Gilbert, Esq, R.S.A.,

And which, upon the Opening of the

New Sheriff Court-house, was placed in the Court-room,

In Memory of the occasion,

And as a mark of the high respect and esteem in which he has been held

By all classes during the 37 years he has filled the office of

SHERIFF OF THE COUNTY.

Mr Tait in the course of his reply said :—

"I am proud of our little county and the great spirit and energy of its inhabitants. During my tenure of office I have come in contact with all classes of this varied community, high and low, and such contact has rarely been unsatisfactory, although it is not always pleasant to come before the Sheriff. Even when, *virtute officii*, my duty has necessarily produced unpleasant effects, I have been treated with respect, and found no angry feelings entertained against me personally. . . . It is highly gratifying to have your approval of my conduct as your Sheriff during the long period I have held that office, however sensible of my shortcoming, and still to retain your confidence in my judgment, discretion, and impartiality. But it is perhaps still more gratifying to have your affectionate regard, and the present demonstration and your expression of kindness make me bold to hope I possess that. I have a warm heart for the Ochils, and the district of which they are the guardians. The beauty of their glens, with their rocks and waterfalls, and their rugged steeps and grassy slopes, with their never-ceasing variety of light and shade, have always fresh charms for me. I have spent the happiest days at their feet, and when my term of life is over, I hope my mortal remains will repose under their shadow."

Mr Tait was installed Sheriff of Perth in July 1866, but in consequence of advancing years he resigned the appointment in 1874.

The deceased gentleman was identified with Dollar Institution as a Trustee almost from its foundation in 1818. It also should be noted that, while resident in this part of the country, he was ever ready when called upon to give an address or lecture on behalf of any good object, and in many ways manifested a lively interest in the welfare of a county with which he had been so long officially identified.

The remains of the deceased gentleman were interred in the family burying-ground at Harviestoun, on Tuesday the 29th of May, in presence of the Archbishop of Canterbury; James Tait, Esq., advocate; the Rev. Crauford Tait; Captain Tait, and a large assemblage of nobility and gentry.

Many other estimable men, in and around Alloa, occupying honourable positions in life, though not so prominently before the public as those we have referred to, have been called away during the year 1877.

PUBLIC PARK FOR ALLOA.

An introductory word on this subject may be here given. It must be very gratifying to the Magistrates and Commissioners of the burgh to have experienced of late such conclusive proof that the householders of Alloa heartily appreciate their efforts to obtain for the public, what has long been called for, a Public Park. Nothing was easier than to complain of the size and site of the proposed park; but now complaints are at an end, and all are agreed that the twenty acres of ground lying to the west of Alloa, now about to be feued from the Lord of the Manor, will form the best pleasure ground or place of public resort or recreation that could have been selected. The preliminary expenses incidental to providing seats, gates, bridge, &c., and forming approaches to the park, will be unavoidably heavy, but it is hoped that the inhabitants of town and district, and all interested in the prosperity of Alloa, will supply adequate funds. Liberality to the extent of £400 has already been evinced, but more is required.

The Abercrombies for many years represented the County in Parliament. Alexander Abercromby, the first of Tullibody, was second son of Sir Robert Abercromby of Birkenbog, Bart. His grandson was the celebrated Sir Ralph Abercromby, whose widow, after her husband's death at the battle of Alexandria, was created Baroness Abercromby of Tullibody; the title descended to her son, who was grandfather to the present Peer.

BALFOUR OF BURLEIGH, BARON (Bruce-Balfour). 1606 Baron Balfour of Burleigh; attainted in 1716 in the person of Robert, fifth Lord. The representation was long claimed by the late Robert Bruce, Esq., of Kennet, the heir of line; also by Francis Balfour Esq. of Fernie, the heir male of the body of Lord Burleigh. After Mr Bruce's death, his son, Alexander Hugh Bruce, Esq., prosecuted the claim. Accordingly, by a judgment of the House of Lords, in July, 1868, Mr Bruce was declared to have made out his claim as Baron Balfour of Burleigh, and the reversal of the attainder was applied for. This petition was granted on 19th March 1869. The present Baron was born in 1849, educated at Eton, and Oriel College, Oxford, succeeded his father in 1864, as 17th Laird of Clackmannan, from Thomas de Bruce, who obtained a charter of the lands of Kennet from his father, Sir Robert de Bruce of Clackmannan, which charter was confirmed by King Robert III. in 1399. The Bruces of Kennet ended in an heiress in the person of Margaret, only child of Robert Bruce of Kennet, who married her cousin, Archibald Bruce, son of David Bruce, of Green, who was third son of Sir David Bruce of Clackmannan, Knt. David's grandson married the daughter of Lord Balfour of Burleigh, and through that marriage the late Mr Bruce of Kennet claimed the Barony. Robert Bruce, the son of this marriage, was Sheriff of Clackmannanshire, and afterwards raised to the Bench as Lord Kennet. His grandson, the late Robert Bruce Esq. of Kennet, was for some time a Captain in the Grenadier Guards, and served with that regiment at Waterloo. He was also M.P., and for several years Vice-Lieutenant of this county, and died in 1864, leaving a son, the present Lord Balfour of Burleigh, born 13th January, 1849; *m.* November 21st, 1876, Lady Katherine Gordon, youngest sister of the present Earl of Aberdeen, daughter of George, fifth Earl, and granddaughter of the fourth Earl, who was a distinguished statesman, filled various public offices, and was First Lord of the Treasury from 1852 to 1855, and has issue a daughter, Mary,—

Mr Bruce also left a daughter, Henrietta Anne, who was married on 26th November, 1874, to Claud Hamilton, Esq. of Preston-Hall, Midlothian.

The Dundases have produced a series of men eminently distinguished for their public services. The chief of the House is James Dundas, Esq. of Dundas. Sir Laurence Dundas, the founder of this branch, purchased the Clackmannan estate from the family of Bruce about 1766.

ELGIN AND KINCARDINE, EARL OF, K.T., G.C.B., VICTOR ALEXANDER BRUCE, Baron Bruce of Kinloss, 1603; Baron Bruce of Torryburn, 1647; Earl of Elgin, 1623; Earl of Kincardine-on-Forth, 1647; Baron Elgin in the United Kingdom, 1849; and chief of the Bruces; *b.* 1849, *suc.* his father, 1863; educated at Eton and Baliol College, Oxford. He married, first, Elizabeth Mary, only child and heiress of Mr Charles Lennox Cumming Bruce, of Kinnaird, M.P. for Elgin, by whom he has one daughter, Elma,

m. in 1864 to the Hon. Thomas John Howell Thurlow. Robert.

The family of Bruce, of which his lordship is chief, were descended from an illustrious Norwegian race, who married with the daughters of the Kings of Norway and Scotland, and Grand Dukes of Russia, long before the conquest of Normandy, in which the great-great-grandfather of Bruce, then Earl of Caithness, assisted. His grandson accompanied his kinsman, William, Duke of Normandy, in the invasion of England in 1066. The descendant of this Norman Baron married the heiress of Annan, Lord of Annandale, and thus became settled in Scotland. Through the marriage with the heiress of David, Earl of Huntingdon (who was nephew of Malcolm, King of Scotland), Robert Bruce succeeded to the Crown of Scotland. His son, King David Bruce, in 1358, conferred to his cousin, Robert de Bruce, the Castle and Barony of Clackmannan. Fifth in descent from this Sir Robert, was Sir David Bruce of Clackmannan, who left three sons—John of Clackmannan, whose line became extinct in 1773; Sir Edward of Blairhill, &c., ancestor of the Earl of Elgin; and David, ancestor of the Bruce of Kennet. The House of Bruce is also represented by the Marquis of Ailesbury and the Duke of Buckingham, to whom the Barony of Bruce of Kinloss was allowed three years ago.

shire, and Aldie Castle. Heir to the Barony of Nairne, her son, the Marquis of Lansdowne.

The first Lord Nairne was a Lord of Session, who secured his title, with remainder to the husband of his daughter, namely, Lord Wm. Murray, son of the first Marquis of Athole; the title, after having twice suffered attainder and restoration, has descended through the second son of Lord William, to his great-great grand-daughter, the Marchioness of Lansdowne.

OSBORNE-ELPHINSTONE, LADY WILLIAM GODOLPHIN. The Hon. Georgina Augusta-Henrietta Elphinstone, younger daughter of the late Viscount Keith by his second marriage, married—firstly, 1831, the Hon. Augustus Villiers, second son of the Earl of Jersey, who died 1837; secondly, 1870, Lord William Godolphin Osborne, brother to the late Duke of Leeds. *Seat*—Tullyallan Castle.

Memoranda regarding the various Trusts for the Endowment of an Assistant Minister in the Parish of Alloa.

I. THE LADY CHARLOTTE ERSKINE MORTIFICATION.

Lady Charlotte Erskine by her deed of settlement, of 27th December, 1787, conveyed to Charles Hope, and other Trustees, her estate for objects, among which were the founding of an Endowment for an Assistant-Minister, and provision of Church Accommodation of the Parish of Alloa.

The Erskine Mortification consists of two parts :

- (1) 246 Sittings in the Parish Church—the Trustees of which Trust are the Minister and Kirk Session ; and the amount drawn from which, for year 1871-72, was £48 2s 5d.
- (2) A bond for £780 17s 5d sterling, which is invested in heritable security, and a sum of £96 lying in Bank at interest,—the Trustees of which are the Trustees of Lady Charlotte Erskine ; and which yielded for the year 1871-72 £32 9s 8d.

II. THE JOHNSTON MORTIFICATION.

Robert Johnston, merchant in Alloa, by a mortification and disposition, executed by him of date 29th May 1739, made over to the Minister of Alloa, the elders of the said parish, and treasurer for the time, and their successors in office, certain funds "for the encouragement and subsistence of a pious man, licensed by the present Established Church of Scotland, to help and assist the Minister in preaching the Gospel, and catechising and visiting the sick of said parish, the said Assistant being elected by the Minister, elders, treasurer, and a majority of the heads of families, of the said parish of Alloa in communion with the Established Church."

III. THE DUNCAN MORTIFICATION.

By a Trust Disposition and Settlement, of date 12th September, 1866, Miss Catherine Duncan bequeathed "to the Kirk-Session of the Parish Church of Alloa, the sum of two hundred pounds sterling in trust, and for the uses and purposes following, viz., in order that the said sum shall be invested in heritable security, or in the Government Funds, as soon as convenient, and that the annual interest or produce thereof shall be paid half-yearly to the Assistant-Minister in said Parish Church for the time being, as an addition to his salary or stipend."

IV. THE ORR MORTIFICATION.

Miss Janet Orr, by her last will and testament, appointed her Trustees to pay over to the Minister, elders, and kirk treasurer of the Parish of Alloa, the sum of three hundred pounds sterling, "to be kept constantly invested in first-class security, . . . and the annual income and produce of the said sum shall each year be paid to the Assistant-Minister of the parish of Alloa for the time being, in aid of his other emoluments, and as incentive to him to be diligent and faithful, . . . and this annual income shall always be paid to the Assistant-Minister who is in receipt of the income of Lady Charlotte Erskine's mortification."

The endowment for the Assistant is thus as under :

I. The Erskine Mortification—			
1. Capital sum of £876 17s 5d, which yields.....	£32	9	8
2. Seat Rents, which yielded for 1871-72.....	48	2	5
II. Johnston Mortification—			
Capital sum of £570 17s 5d, which yields.....	24	11	6
III. Duncan Mortification—			
Capital sum of £180, which yields.....	7	4	0
IV. Orr Mortification—			
Capital sum of £270, which yields.....	10	16	0

So that the whole statutory endowment amounts to £123 3 7

The patronage of the Erskine and Orr Mortifications originally belonged to the Earl of Mar; and the right of election to the Johnston and Duncan Mortifications was vested in the Minister, Elders, Treasurer, and a majority of the Heads of Families being Communicants in the Parish Church. Under the provisions of the Patronage Act, the combined Patronage is now vested in the new constituency of Communicants and Adherents.

The County of Clackmannan, it may be appropriate here to remark, occupies the anomalous position of having parishes within its circumference politically, which it does not embrace judicially. We have, for example, Alva in Stirlingshire, and Kincardine and Culross in Perthshire, while politically all these are incorporated with the County of Clackmannan, which unites with Kinross-shire in returning a member to Parliament. Even geographically, the parishes specified are incorporated with Clackmannanshire, but the parties more immediately interested have hitherto expressed their desire for a continuance of the present anomalous arrangement.

There was instituted in Novr. 1875, and formally opened in Tillicoultry on 4th December, 1875, amid great rejoicings, a British Workman Public House. The charge for membership is only 5s per annum. Casual visitors are charged one penny. The gift of the old but commodious U.P. The success of the institution has been hitherto most satisfactory. Managers of the house—Mr and Mrs Harvey ; Chairman of the Committee, Mr James Jeffrey, secretary, Mr G. Oswald ; treasurer, Mr H. GAS LIGHT COMPANIES.

ALLOA: Company instituted 1828. Capital £10,000. Town firstlighted September 1829. Present price of gas per 1000 feet, for Alloa and Keilarsbrae, 4s 7d; for Cambus and Sauchie, 5s 5d; for Clackmannan, 7s 1d.

During the past year, the Alloa Gas-light Company has ceased to exist. The Commissioners of the Burgh, availing themselves of the powers accorded to them by "The Burghs Gas Supply (Scotland) Act, 1876," unanimously agreed that the provisions of the said Act should be applied to the Burgh of Alloa. There was little opposition to the movement. Indeed there seemed to be a general concurrence of opinion, both amongst the Burgh householders and the shareholders of the Gas Company, that the gas supply should be in the hands of the Burgh Board, in the same way as the water supply. In accordance with the resolution come to, the Gas Company selected as their arbiter, Mr Fairlie Wilson, gas engineer, London; the Burgh Commissioners chose Mr Wm. Foulis, gas engineer, Glasgow. The "oversman" was Mr Morton, gas engineer, London, but as the arbiters agreed his services were not required. By the arbiters' award, the price to be paid for the gas works, business, property, heritable and moveable plant, pipes, meters, and other assets, was £23,250 (equal to £23 5s per share)—and this sum has now been divided among the shareholders according to their respective rights and interest.

The Stirling, Alloa, and Kincardine Steamboat Company having been dissolved in the beginning of 1874, their two steamers, the *Victoria*, and the *Prince of Wales*, were exposed to sale by public auction, and became the property of rival companies. Both steamers plied during the summer of 1874 between Stirling, Alloa, Leith, and Granton, calling at all the intermediate ports. During the summer of 1875, the *Victoria* was the only steamer on the passage, but in the spring of 1876 two new and powerful saloon steamers, the *Lord Elgin* and *Lord Mar*—the property of the Forth River Steam Company—were placed on the passage, and gave a great impetus to the passenger trade. M. P. Galloway, Timber Bush, Leith, manager. The steamers were withdrawn for the season September, 1877.

Several steam-tugs ply on the river for the convenience of vessels arriving at Alloa or South Alloa, Clackmannan and Kennetpans.

A steamboat of considerable size and power (the Countess of Kellie) has been placed on the Ferry at Alloa, and at present this steamer leaves the North side every hour, and the South side twenty minutes past every hour in summer, from 7 A.M., till 8 P.M., and in winter from 7 A.M., till 6 P.M. E d u c a t i o n a l .

By the "Education (Scotland) Act, 1872," the educational system of Scotland has been greatly remodelled. In every parish or "school district" in Scotland, a School Board has been established, consisting of fit and proper men chosen from and elected by the qualified householders—*i.e.*, owners and occupiers of lands, &c., of £4 and upwards annual value—and whose tenure of office is for three years. As to powers, the School Board supersedes the heritors and ministers in all powers, obligations, and duties vested in or incumbent on them in regard to parish schools; also supersedes town councils in all powers and duties vested in them in regard to burgh schools. As to duties, the School Board has to supply any deficiency of public school accommodation in any parish or burgh; become vested in all public schools, whether existing at passing of the Act or subsequently established; and to maintain and keep efficient every school under their management. The School Board may accept of transference of existing denominational or subscription schools, with consent of Education Board of Scotland. But out of sight the most important desideratum supplied by the Education Act is that afforded by the "compulsory clause," whereby the School Board is empowered to require that all children between the ages of 5 and 13 be sent to school. To meet the expenditure attendant upon the proper working of the Act, the School Board is also empowered to cause to be imposed a "school rate," which shall meet such expenditure.

Such are the leading features of the Scotch Education Act; and it now remains for us to come to local matters, and to give a list of the members and other information as to the several

MORISON'S PILLS
AND THE
HYGEIAN SYSTEM OF MEDICINE
OF
JAMES MORISON, THE HYGEIST.

o

TO THE MESSRS MORISON, BRITISH COLLEGE OF HEALTH,
LONDON.

GENTLEMEN,

It may be well that I present you, as a final testimony, with the following statement:—During the first thirty-four years of my life I was always sickly—never really well. During many of these years I was unable to engage in any employment; several times I was at the point of death. Stomach, liver, and bowels could not do their normal work. Piles added to the disorder and distress; and a sense of debility and low-spiritedness was my very frequent experience. I had recourse to numerous doctors, and used all their prescriptions, until their skill was exhausted, without any satisfactory results. I became hopeless; and looked for relief only to the grave to terminate, what was often a very sad and wearisome existence. A trusty friend advised me to try your medicines, and I did. Six weeks' use of the same made me a new man, and I exulted in a renovated life. I could then walk with vigour and joy, and almost felt as if I could fly. I would not have exchanged my reanimated and happy state for a thousand worlds. I can never forget that blessed period! For two years I constantly used the medicines in ample doses. Strengthening and not weakening effects were the consequences. Doctors said my bowels would fall into pieces—they only grew stronger. Appetite became vigorous

ADVERTISEMENTS.

and healthy ; bile ceased to sicken existence ; piles tormented no more ; the depression and gloom, that had so long brooded over my mind, passed away ; and a new lease of a happy, active life *was now mine*. To doctors with their drugs I now bade farewell—it was impossible to do otherwise—restored health by your medicines could lead to no other conclusion. A fig as to their composition—*their experimental effects were all I could desire*—and all I cared about. JAMES MORISON and his medicines were of infinitely greater consequence to me than the whole Pharmacopœia, with the medical fraternity to boot. I would have been beastly stupid or mad had I thought otherwise. I am now eighty years of age,—I stand alone, having outlived all my youthful friends and contemporaries. I still enjoy a fair measure of health and take a constant interest in the affairs of the world. I enjoy life with a strong relish. The use of your medicines, conjoined with the non-use of intoxicating drinks, during forty-five years, have most certainly conduced to this prolonged existence. To my personal experience I should add, that, as a father of a family, and as your agent during forty years, I have had most extended experience of the effects of your medicines. I never knew them do real harm to a human being—in numberless cases, and in diseases of all sorts, I have known of their alleviating and curing power. It would be impossible to over-estimate the good they would effect on the diseased and suffering, were the medicines used as I have used them. Few men now living know these great truths and facts better than I do ; and, with the authority this extended experience gives me, I fearlessly proclaim my views and convictions to all men. A universal medicine ! Yes ! Disease of all sorts and types is undoubtedly derived from, and produced by impurity. Who is capable of confuting this grand scientific truth ? MORISON'S MEDICINES simply remove bodily impurities ; and consequently cut at the originating roots of all diseases whose types are *many*, but whose origin is ONE. I present you these simple harmonious facts, instead of the contradictory nonsense that so much pervades all common systems of medicine. Morison's Medicine acts by, and under physical law, aiding, not forcibly violating nature, purifying the *whole* mass of fluids *in* the body (for that is what it does), and then nature, relieved and purified asserts its supremacy, restored health being the result. So far as medicine is concerned, the

ADVERTISEMENTS.

proper road to health is now pointed out ; but let there be connected with its use every wise, restoring, sanitary appliance. Let it also be observed, disease is only comparatively curable—dying, we must all die, and that generally by disease ; but there is a right and wrong way of treating it. From the latter, no good can result—from the former, good may always be reasonably expected.

JOHN FRASER.

ADVERTISEMENTS.

the stomach and chest is no longer a matter of doubt—one trial is all that is required to prove its superiority over every other remedy.

Nervousness—Vigorous Health.

All diseases affecting the nervous system arise from impurities of the blood or vitiated secretions. These Pills have attained a well deserved fame in curing indigestion, flatulency, and costiveness, as also palpitation, pain in the side, and those morbid feelings usually attendant on all cases of nervous diseases. The painful sensation of anxiety, very common in such cases, daily diminishes under their use, and finally disappears.

Mothers and Daughters.

Delicate females of all classes, who suffer from those disturbances of the system incidental to their sex, will find in these Pills a safe remedy for all the disorders under which they may labour; they will remove the cause of suffering and invigorate all the bodily organs. At the dawn of womanhood—the period of maturity, and what is termed the change of life, this medicine is strongly recommended.

Coughs, Colds, Bronchitis, and Asthma.

The most obstinate cases of disease of the lungs, and affections of the chest yield to the properties of these Pills. The asthmatic or those suffering from a tightness of the chest, a difficulty of breathing, or a bad cough, should therefore have recourse to these remarkable Pills; they will thus obtain immediate relief, succeeded by a radical cure.

Holloway's Pills are the best remedy known in the World for the following diseases:—

Ague	Female Irregularities	Jaundice	Stone and Gravel
Asthma	Fever	Liver Complaints	Secondary Symptoms
Bilious Complaints	Fits	Lumbago	Tic-Douloureux
Bowel Complaints	Gout	Piles	Tumours
Consumption	Headache	Rheumatism	Ulcers
Debility	Indigestion	Scrofula	Venereal Affections
Dropsy	Inflammation	Sore Throats	Worms of all kinds
Dysentery			Weakness, from whatever cause.
Erysipelas			

The Pills and Ointment are sold at Professor HOLLOWAY'S Establishment, 533 Oxford Street, London, also by nearly every respectable Vendor of Medicine throughout the Civilized World, in Boxes and Pots, at 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each. The smallest Box of Pills contains four dozen; and the smallest Pot of Ointment one ounce.

Full Printed directions are affixed to each Box and Pot, and can be had in any language.

N.B.—Advice can be obtained, free of charge, by applying at the above address, daily, between the hours of 11 and 4, or by letter.

ADVERTISEMENTS.

An Infallible Remedy for Bad Legs, Bad Breasts, and all kinds of Wounds.

The marvellously increasing sale of this Ointment throughout the globe is the most convincing proof of its efficacy. With wonderful celerity it cures bad legs, bad breasts, old wounds, scrofula, and all diseases of the skin. Thousands of victims to these dreadful maladies have been restored to health by this potent remedy after every other means had failed.

Colds, Coughs, Diphtheria, and Bronchitis.

This Ointment is irresistible in the cure of these throat and pectoral complaints, which when neglected often end in ulceration, settled asthma, or consumption; the Ointment well rubbed upon the chest and back night and morning penetrates the skin, and thus absorbed, is carried directly to the lungs, where in immediate contact with the whole mass of circulating blood, it neutralizes or expels all impurities.

Gout, Rheumatism, and Stiff Joints.

This invaluable preparation exercises a more obvious control over gout and rheumatism than does any other medicine; no one need remain uncured who will, in good earnest, make a vigorous application of this infallible remedy, according to the printed directions affixed to each pot. All settled aches and pains will likewise be banished by the same treatment.

ADVERTISEMENTS.

Abscesses, Erysipelas, Piles, and Fistulas.

This Ointment is invaluable to the young and timid, on occasions when undue bashfulness may endanger life. It arrests the spreading inflammation, soothes the excited vessels, cools the overheated skin, allays all throbbing and smarting pains, and thereby gives great ease.

Both the Ointment and Pills should be used in the following cases :

Bad Legs	Chiego-foot	Fistulas	Sore Throats
Bad Breasts	Chilblains	Gout	Skin Diseases
Burns	Chapped Hands	Glandular Swellings	Scurvy
Bunions	Corns (Soft)	Lumbago	Sore Heads
Bite of Mosche- toes and Sand- Flies	Cancers	Piles	Tumours
Coco-bay	Contracted and Stiff Joints	Rheumatism	Ulcers
	Elephantiasis	Scalds	Wounds
		Sore Nipples	Yaws

MUTUAL LIFE ASSURANCE.

Scottish Provident Institution,

No. 6 ST. ANDREW SQUARE, EDINBURGH.

THE ATTENTION of Assurers is directed to the SPECIAL ADVANTAGES obtainable in this Society, in respect of ECONOMY—EQUITY—SAFETY.

ECONOMY.—The Premiums are in many cases 20 to 25 per cent. under the usual Rates, so that a Policy for £1200 or £1250 may generally be had for the yearly payment which would elsewhere assure £1000 only.

EQUITY.—The whole Surplus is divisible among the Policyholders themselves, on an equitable principle—no share being given to those by whose early death there is a *loss* to the other Members. From this source large additions have been made, and may be expected in the future.

SAFETY.—The Business (which for ten years has exceeded a Million yearly) is of the most select character, and conducted at the smallest cost.

The Expenses were last year only 9·4 per cent. of the nett Premiums, or 6·6 of the year's Income, which is less than in any Office transacting so large a business.

The FUNDS thus accumulated entirely from Premiums, exceed £4,600,000.

Only two Offices in the kingdom (both older) have as large a Fund.

Examples of Premiums for £ 100 at Death—With Profits.

Age	Payable during life	By 21 Payments	Age	Payable during life	By 21 Payments	Age	Payable during life	By 21 Payments
25	£ 1 18 0	£ 2 12 6	35	£ 2 6 10	£ 3 0 2	45	£ 3 5 9	£ 3 17 6
30	2 1 6*	2 15 4	40	2 14 9	3 7 5†	50	4 1 7	4 12 1

* Thus a Person of 30 may secure £ 1000 at death by a yearly payment, *during life*, of £ 20 15s. This Premium would generally elsewhere secure £ 800 only, instead of £ 1000. Or he may secure the same sum of £ 1000 by *twenty-one* yearly payments of £ 27 13s 4d, *being thus free of payment after age 50.*

† At age 40 the Premium *ceasing at age 60* is, for £ 1000, £ 33 14s 2d, being about the same as most Offices require to be paid during the whole term of life.

Claims under Policies now payable a month after proof.

REPORTS, with TABLES of PREMIUMS, &c., may be had on application.

Annual Register.

THE BURGH OF ALLOA.

We have long had a desire to have an engraving of the BURGH ARMS. We have now achieved our purpose, and have pleasure in presenting our readers with the above engraving. It will be seen that the Arms of the Burgh is a griffin,—the upper part resembling an eagle and the lower part a lion. This is a mythical or imaginary animal. It will be observed that the griffin is represented as one-half an eagle and the other half a lion. It is represented with wings, a

beak, two claws, and two feet. The figure of the griffin may be seen on ancient medals, and is still borne in coat-armour. It is also an ornament of Greek architecture. The old Town Cross of Alloa, it may be here remarked, stood about 200 years ago in the Trongate.

Old Alloa's Cross, a pillared stone,
Rose on a turret octagon.

From this Cross, royal and civic proclamations were wont to be made; but it was taken down about a century ago, and thrown into the Earl of Mar's policy. This landmark in 1860 was there discovered in its broken and buried state, and was thence conveyed to the ancient "flesh market" in Bank Street. Some years ago it was erected in front of the Municipal Buildings, and the curious in these matters may observe that the old Town Cross (these market Crosses were very common at a former period) has had constructed on its summit the head of the griffin—so that the old octagonal stone is something like the griffin itself—in two parts—one part representing the Old Cross of the Town, while on the summit we have part of the body of the griffin.

By the bye, writing of arms and griffins reminds us that we have beside us a letter, written so long ago as 1863, twenty years ago, by the late John Francis, Earl of Mar, and as it has a bearing on the matter under consideration, there can be no harm, we think, in now producing it:—

Douglas's peerage, edited by Mr Wood, is an excellent publication: but as the late Mr Wood was dumb; and thus it was not very easy to communicate with him: and as the present Earl of Mar's Grandfather took no trouble to do so, about the publication of the work, so the armorial bearings therein exhibited as of the family of Mar and Erskine combined, seem to be in some degree wrong; or at least not such precisely as the combined family has been for long accustomed to bear the arms. Thus if the present Earl of Mar remembers rightly; in Mr Wood's edition; the arms (of the combined) Mar and Erskine family are exhibited with two griffins as supporters, which would be proper as to that; if only the Erskine of Erskine supporters had to be represented; but as it is believed that (before the combination of the two families) the supporters of the Mar family were two lions, and as it was impossible to put all four to a shield of arms; so one lion and one griffin were taken; to represent both families. But in Mr Wood's edition, the Erskine arms are represented in the dexter quarter of the shield; while or although the custom of the combined family

of Erskine and Mar has been (ever since the combination) to bear the Mar arms (as of the principal fief) in the dexter quarter of the shield; and so on. *Nota bene*, Erskine of Erskine was formerly a Distinct Barony, and Family, and Estate: in Renfrewshire; and did not derive from the Mar family: before the combination, and the present Earl of Mar and Kellie is the direct male Representative and descendant of the Erskine's of Erskine; Barons of Erskine (in Renfrewshire) and the Estate of Erskine (in Renfrewshire) was only sold by Charles Earl of Mar; in consequence of either his own or his Father's expenditure;—in troublesome times. Lord Blantyre has that Estate now. But the present Earl of Mar does not pretend to be a genealogist: and Mr Wood's publication certainly explains much better about Pedigrees. The Mar family has been accustomed to call Garioch, in short, as a Lordship: but it was an Earldom: combined with Mar; like Lords of Strathdon, and Strath Dee; and so on.

The annexed seal shows an impression of the Mar and Erskine arms; combined: before the Kellie titles were decreed to the present Earl. [Here the late Earl gives us a copy of the seal, but it is very small and not very legible.]

At first, we acquired the following engraving of the Burgh Arms, but it will at once be seen, to those who know something of Armorial Bearings, that the Griffin is looking the wrong way, and so soon as we discovered the mistake we ordered a new and correct engraving—and this it is which heads this article—the following being the faulty one:—

RAILWAY PROJECTS.

In November last, the Caledonian Railway Company publicly announced their intention to apply to Parliament for leave to bring in a bill for the purposes (amongst others) following, and these being of local interest, we gladly give the projects (copied from the Parliamentary Notice itself) additional publicity through the pages of the "COUNTY REGISTER":—

A Railway (hereinafter called "Railway No 5"), being a doubling of the line of so much of the Company's South Alloa Branch as extends from the junction thereof with the Company's Scottish Central Main Line to the junction of the said Branch with the Alloa Railway, authorised by the Alloa Railway Act, 1879, and now in course of construction; which intended Railway No. 5, and works connected therewith, and the lands, houses, and other property which may be taken for the purposes thereof, will be and are situate in the Parishes of St. Ninians and Airth, in the County of Stirling :

A Railway (hereinafter called "Railway No. 6"), being an extension of the said Alloa Railway, commencing by a junction with the authorised line of that Railway at the termination thereof, and terminating in the Burgh of Alloa, on the western side of the street or road called Glasshouse Loan, at a point 14 yards, or thereabouts, northward from the north-eastern corner of Craigward Cooperage :

A road or street commencing at a point 50 yards, or thereabouts, southward from the south-eastern corner of the Bass Crest Brewery, and terminating on the western side of Glasshouse Loan aforesaid, at a point 37 yards, or thereabouts, northward from the north-eastern corner of Craigward Cooperage; which intended Railway No. 6, and intended road or street, and the lands, houses, and other property which may be taken for the purposes thereof, will be and are situate in the Parish of Alloa, and the Burgh of Alloa, in the County of Clackmannan.

To empower the Company to acquire, compulsorily or by agreement, and to enter upon, take and use, temporarily and permanently, all such lands, houses, and other property as may be necessary or convenient for the purposes of the

several intended railways, road or street, and other works hereinbefore described, and of the works and conveniences connected therewith; and also the lands hereinafter described, or part thereof, and all houses and other property thereon, for the purposes of station accommodation in connection with the Alloa Railway, viz. :

Certain lands in the Parish of Alloa and Burgh of Alloa, in the County of Clackmannan, bounded on the east by Glasshouse Loan aforesaid, on the south by Craigward Place and the road in continuation westward thereof, on the west by a line parallel to and distant 20 yards, or thereabouts, westward from the western side of the road leading from Craigward Place to Bass Crest Brewery, and on the north by the northern side of the intended road or street hereinbefore described, and of a line in continuation westward of such northern side.

To enable the Company to stop up so much of the aforesaid road leading from Craigward Place to Bass Crest Brewery as lies between the commencement of the intended road or street hereinbefore described, and a point 95 yards, or thereabouts, southward from such commencement.

To extend the time limited by the Alloa Railway Act, 1879, for the completion of the Alloa Railway (including the Bridge) authorised by that Act, and the opening thereof for the public conveyance of passengers.

ALLOA RAILWAY AND BRIDGE.

In last year's "Register" we gave a sketch of this important undertaking, which has during the past year been pushed forward with every possible speed by the contractors, Messrs Watt & Wilson of Glasgow. It may be remembered that the memorial stone, which was placed in one of the massive piers, was laid by Lord Balfour of Burleigh on 5th of April, 1882, amid general rejoicing. Since then pier after pier has been erected and completed, and the iron girders thrown over them, until the entire structure is all but finished. The seventeen spans of the bridge rest on twenty-four stone piers, 24 feet above high water-mark. Each of the girders has been tested with a pressure reaching 12 cwts. to each foot of space, the weight being as nearly as possible on the centre of the girders. None of them indicated a deflection of 1-80th of an inch over each foot of span, exceeding which the girders were to be rejected. All are of malleable iron of such quality as will bear a tensile strain of 22 tons per square inch before fracture, and of 11 tons per square inch when in permanent way. A swing span or draw-bridge is to be placed in the line of the channel, and at right angles with the main bridge, and the preliminary stages of this section of the work are far advanced. More than half of the permanent way on each side of the river has been laid, while the embankment on the north side is being pushed forward. The new railway, which is estimated to cost over £40,000, is expected to be opened for traffic in the spring of 1884.

On the north side, the line of rails has been brought up beyond the Foundries, terminating meantime a little to the south of Bellevue. Rumour has it that the line is to be extended to Glasshouse Loan, where, in all probability, it will lead into a goods station for the Caledonian Railway Coy., who are contemplating the purchase of certain property in that locality. As may be already known, the passenger traffic over this new railway, as regards both the Caledonian and North British Coy.'s, will be concentrated at Alloa N.B. Station, and with the view of forming a connection with the North British permanent way, a loop line is in course of construction, beginning at a point a little to the west of the Grange Level Crossing.

ALLOA POST-OFFICE.

In the COUNTY REGISTER for 1883, reference was made to the new Post-Office Buildings in Bank Street, the memorial stone of these having been formally laid on 25th January of that year, and possession of which were taken by Miss Norrie and her staff of officials on 13th November 1882. In that reference or notice, there occurs the following paragraph :

“ There is an open space of some 20 feet between the line of the street and the front of the building, thus giving ample room for carriages drawing up without obstructing the public traffic. This space has yet to be paved with granolithic, a material now much used for such purposes, and is a composition of ground granite and Portland cement,—same as at the North British Railway Station.”

That was written in December 1882, and now, in December 1883, we are sorry to say that, greatly to the public inconvenience, and the general discomfort of all visitors to the Post-Office, the granolithic is not yet laid, and when it will be laid no man can say. It is to be regretted that so fine a building, in so central a situation, should have been so long disfigured by there being only one or two squares of the granolithic laid. We have heard it said, by way of explanation, that there is a litigation now pending between the mason contractors and the proprietor of the building, and in the meantime the public must suffer.

Reference was also made in the COUNTY REGISTER for 1883 to the removal of Alloa Prison, and to the substitution in its room of a new Drill Hall,—the property of the Clackmannanshire and Kinross-shire Volunteer Corps. We then stated that the ground to the west of the Drill Hall, and within the Prison property, had been taken off with a view to the erection of a large Public Hall. For the present, the project has been abandoned. Whether it may be revived it is difficult to say. Meanwhile the ground in question has been acquired by Colonel Mitchell, and is at present used for Drill purposes.

The Abercrombies for many years represented the County in Parliament. Alexander Abercromby, the first of Tullibody, was second son of Sir Robert Abercromby of Birkenbog, Bart. His grandson was the celebrated Sir Ralph Abercromby, whose widow, after her husband's death at the battle of Alexandria, was created Baroness Abercromby of Tullibody; the title descended to her son, who was grandfather to the present Peer.

BALFOUR OF BURLEIGH, BARON (Bruce-Balfour). 1606 Baron Balfour of Burleigh; attainted in 1716 in the person of Robert, fifth Lord. The representation was long claimed by the late Robert Bruce, Esq., of Kennet, the heir of line; also by Francis Balfour Esq. of Fernie, the heir male of the body of Lord Burleigh. After Mr Bruce's death, his son, Alexander Hugh Bruce, Esq., prosecuted the claim. Accordingly, by a judgment of the House of Lords, in July, 1868, Mr Bruce was declared to have made out his claim as Baron Balfour of Burleigh, and the reversal of the attainder was applied for. His petition was granted on 19th March 1869. The present Baron was born in 1849, educated at Eton, and Oriel College, Oxford, succeeded his father in 1864, as 17th Laird of Clackmannan, from Thomas de Bruce, who obtained a charter of the lands of Kennet from his father, Sir Robert de Bruce of Clackmannan, which charter was confirmed by King Robert III. in 1399. The Bruces of Kennet ended in an heiress in the person of Margaret, only child of Robert Bruce of Kennet, who married her cousin, Archibald Bruce, son of David Bruce, of Green, who was third son of Sir David Bruce of Clackmannan, Knt. David's grandson married the daughter of Lord Balfour of Burleigh, and through that marriage the late Mr Bruce of Kennet claimed the Barony. Robert Bruce, the son of this marriage, was Sheriff of Clackmannanshire, and afterwards raised to the Bench as Lord Kennet. His grandson, the late Robert Bruce Esq. of Kennet, was for some time a Captain in the Grenadier Guards, and served with that regiment at Waterloo. He was also M.P., and for several years Vice-Lieutenant of this county, and died in 1864, leaving a son, the present Lord Balfour of

Burleigh, born 13th January, 1849; *m.* November 21st, 1876, Lady Katherine Gordon, youngest sister of the present Earl of Aberdeen, daughter of George, fifth Earl, and grand-daughter of the fourth Earl, who was a distinguished statesman, filled various public offices, and was First Lord of the Treasury from 1852 to 1855, and has issue—Mary, *b.* 1877, a daughter, *b.* 1879, and a son, Robert Bruce, Master of Burleigh, *b.* Sept. 25, 1880; a son, *b.* October, 1883. The happy advent of the Master of Burleigh was attended with great rejoicing in Clackmannan. The late Mr Bruce also left a daughter, Henrietta Anne, who was married on 26th November, 1874, to Claud Hamilton, Esq. of Preston-Hall, Midlothian.

In 1858 his Lordship was selected for a special mission to China, and in 1858 he was appointed Postmaster-General. In 1862, his Lordship was nominated by her Majesty, Viceroy of H.M. Indian Empire. Frederick-John, *b.* 1854; Lady Louisa Elizabeth, *b.* 1856. *Seats*, Broomhall, Fifeshire, and Culross Abbey. Heir, his brother, the Hon. Robert.

The family of Bruce, of which his lordship is chief, here descended from an illustrious Norwegian race, who married with the daughters of the Kings of Norway and Scotland, and Grand Dukes of Russia, long before the conquest of Normandy, in which the great great-grandfather of Bruce, then Earl of Caithness, assisted. His grandson accompanied his kinsman, William, Duke of Normandy, in the invasion of England in 1066. The descendant of this Norman Baron married the heiress of Annan, Lord of Annandale, and thus became settled in Scotland. Through the marriage with the heiress of David, Earl of Huntingdon (who was nephew of Malcolm, King of Scotland), Robert Bruce succeeded to the Crown of Scotland. His son, King David Bruce, in 1358, confirmed to his cousin, Robert de Bruce, the Castle and Barony of Clackmannan. Fifth in descent from this Sir Robert, was Sir David Bruce of Clackmannan, who left three sons—John of Clackmannan, whose line became extinct in 1773; Sir Edward of Blainhill, &c., ancestor of the Earl of Elgin; and David, ancestor of the Bruce of Kennet. Memoranda regarding the various Trusts for the Endowment of an Assistant Minister in the Parish of Alloa.

I. THE LADY CHARLOTTE ERSKINE MORTIFICATION.

Lady Charlotte Erskine by her deed of settlement, of 27th December, 1787, conveyed to Charles Hope, and other Trustees, her estate for certain objects, among which were the founding of an Endowment for an Assistant-Minister, and provision of Church Accommodation of the Parish of Alloa.

The Erskine Mortification consists of two parts :

- (1) 246 Sittings in the Parish Church—the Trustees of which Trust are the Minister and Kirk Session ; and the amount drawn from which for year 1881-82, was about £44.
- (2) A bond for £780 17s 5d sterling, which is invested in heritable security, and a sum of £96 lying in Bank at interest,—the Trustees of which are the Trustees of Lady Charlotte Erskine ; and which yielded for the year 1881-82 about £32 9s 8d.

II. THE JOHNSTON MORTIFICATION.

Robert Johnston, merchant in Alloa, by a mortification and disposition, executed by him of date 29th May 1739, made over to the Minister of Alloa, the elders of the said parish, and treasurer for the time, and their successors in office, certain funds "for the encouragement and subsistence of a pious man, licensed by the present Established Church of Scotland, to help and assist the Minister in preaching the Gospel, and catechising and visiting the sick of said parish, the said Assistant being elected by the Minister, elders, treasurer, and a majority of the heads of families, of the said parish of Alloa in communion with the Established Church."

III. THE DUNCAN MORTIFICATION.

By a Trust Disposition and Settlement, of date 12th September, 1866, Miss Catherine Duncan bequeathed "to the Kirk-Session of the Parish Church of Alloa, the sum of two hundred pounds sterling in trust, and for the uses and purposes following, viz., in order that the said sum shall be invested in heritable security, or in the Government Funds, as soon as convenient, and that the annual interest or produce thereof shall be paid half-yearly to the Assistant-Minister in said Parish Church for the time being, as an addition to his salary or stipend."

IV. THE ORR MORTIFICATION.

Miss Janet Orr, by her last will and testament, appointed her Trustees to pay over to the Minister, elders, and kirk treasurer of the Parish of Alloa, the sum of three hundred pounds sterling, "to be kept constantly invested in first-class security, . . . and the annual income and produce of the said sum shall each year be paid to the Assistant-Minister of the parish of Alloa for the time being, in aid of his other emoluments, and as incentive to him to be diligent and faithful, . . . and this annual income shall always be paid to the Assistant-Minister who is in receipt of the income of Lady Charlotte Erskine's mortification."

The endowment for the Assistant is thus as under :

I. The Erskine Mortification—	
1. Capital sum of £780 17s 5d, which yields.....	£32 9 8
2. Seat Rents, which yielded for 1882-83, about	44 0 0
II. Johnston Mortification—	
Capital sum of £570 17s 5d, which yields.....	24 11 6
III. Duncan Mortification—	
Capital sum of £180, which yields.....	7 4 0
IV. Orr Mortification—	
Capital sum of £270, which yields,.....	10 16 0

The whole statutory endowment amounts to about £119 1 2

The patronage of the Erskine and Orr Mortifications originally belonged to the Earl of Mar; and the right of election to the Johnston and Duncan Mortifications was vested in the Minister, Elders, Treasurer, and a majority of the Heads of Families being Communicants in the Parish Church. Under the provisions of the Patronage Act, (Jany. 1875,) the combined Patronage is now vested in the new constituency of Communicants and Adherents.

MOTHERS ! READ THIS !

From Mr C. Winter, Chemist, 324, Bethnal Green Road, Sept. 21st, 1875.

"DEAR SIR,—The sale of 'MRS WINSLOW'S SOOTHING SYRUP' in this neighbourhood increases immensely, which is not to be wondered at while we have so many living instances of its efficacy.

"On Thursday last a case came under my notice in which it had acted as a miracle, and in detailing it I cannot do otherwise than give the same words uttered by a customer who came to purchase a bottle for his infant:—'This syrup I can well recommend. My last child (now three years old) for the first five months was a source of great anxiety to us, he being so very ill. We had him under our own medical man till that time, and getting worse, we were advised to take him to the Children's Hospital, which we did. The physicians there (upon examining the child) told my wife it was no use bringing him any more, as it was impossible for him to recover, he being almost a skeleton; and what course to take we did not know. While sitting up with my wife awaiting the child's death, I read the advertisement of the Syrup, and we resolved to purchase a bottle the next morning. Having obtained it from you, my wife gave the child a dose, and it ceased vomiting, left off whining, and before the day had elapsed it had several hours' rest. I can assure you that by the time the child had taken four bottles it was restored to perfect health, and is now the finest of our family. So wonderful do we look upon the 'stuff' that we have abandoned the name we gave the child at birth, and we now call him 'Winslow'—he being a 'wonder.'"

Sold by all Chemists throughout the world, at 1/1½ per bottle.

BUSINESS DIRECTORY.

—::0::—

It seems to us that a Business Directory would prove more generally useful than the List of Householders in the town, so we have made an effort to give the former. The list of bankers, clergymen, medical gentlemen, teachers, and writers, will be found in their usual places in the REGISTER. It has also to be mentioned that many names, especially amongst the merchant class, apparently omitted, will be found in the LIST OF VOTERS immediately preceding the BUSINESS DIRECTORY.

No one can be more conscious than the Publisher of the COUNTY REGISTER that the preceding BUSINESS DIRECTORY is incomplete. Still, his excuse is, that it is the first time in the history of the locality a Business Directory has been attempted, and the preparation of it has been a little more troublesome than he expected. All that can be laid claim to is a desire to make an approximation to accuracy and completeness. Possibly by another year imperfections may be remedied, and the Directory extended and improved.

THE GAZETTEER OF SCOTLAND.

By the Rev. JOHN M. WILSON.

PREFACE.

THE Publishers have been induced to produce the present Work from the conviction that it would supply a long-felt want—namely, a Gazetteer of Scotland, extensive enough to embrace every Town and Village in the Country, of any importance, as existing at the present day, and yet portable in form and moderate in price.

To add to the value of the Work, the Census of 1881 was extracted from the Official Returns expressly for it, as the lists to be published would not be available for the earlier portion of the Work, already in the hands of the printer.

Besides the usual information as to Towns and Places contained in Gazetteers, it gives the Statistics of Real Property, Notices of Public Works, Public Buildings, Churches, Schools, &c. ; whilst the Natural History and Historical Incidents connected with particular localities have not been omitted.

From the great experience of the Author, who has already compiled several extensive Gazetteers and Topographical works, the Publishers trust that this work will meet the approbation of the numerous class to which it is addressed.

"Carlton, nr. Nottingham,
Feby. 27, 1883.

"Messrs the Midland Counties Drug
Company, Lincoln.

"Gentlemen,—Some ten years ago my wife became lame with ulcerated legs. I tried every recommendation for a cure, and also a large number of doctors (some of them very clever men with diseases of this kind), but to no effect. After being in this state for betwixt five and six years, I determined to try your Blood Mixture as a last resource, as she at that time appeared to be at Death's door, and had to be put to bed, having no use in her legs; and I am thankful to say, after taking 13 of your small bottles, she experienced a perfect cure. This is now four years ago since the cure was effected, and there is no sign of the complaint returning. I may add that it had cost us scores of pounds trying one remedy after another previous to taking your invaluable medicine, for which I return you my sincere thanks.

I am, Gentlemen,

Yours gratefully,
C. S."

"20 Queen St., Edgeware Rd., W.,
6th September, 1883.

"Gentlemen,—Allow me to add my testimony to the efficacy of "Clarke's World-Famed Blood Mixture." Some 20 years since I had a serious compound fracture of the right leg. The bones were properly set, but the blood being in a bad state, scrofula set in. The leg was perforated with large holes, and the bone visible. I applied to the best skin surgeons, tried the patent salves, cerates, washes, medicines, &c., made by Allopaths, Homœopaths, Herbalist, &c., but without avail; in many cases only increasing my suffering. Twice amputation was ordered. I was asked by a friend to give your "Mixture" a fair trial. I took two bottles, and very carefully followed the instructions. The sequel is that the leg, although bearing indelible marks of the terrible sores, is perfectly well. Although this is *six years* ago, and in my business as a printer I have much standing and lifting heavy weights, yet the leg is the best of the two, and never troubles me. I have recommended the use of your medicine far and near, and shall continue to do so. I am about to lecture on the enclosed subject, which will take me to all parts of the kingdom, and I shall not fail to do you all the good I can, as I think the "Mixture" cannot be too widely known.

You are at liberty to make what use you like of the above.—I am,
Gentlemen, faithfully yours,

HENRY MARKS,
Printer, Stationer, &c.

SAFEST AND SUREST TREATMENT.

HOLLOWAY'S PILLS

BILIOUSNESS AND LIVER DISTURBANCES.

These well-known Pills correct degraded Bile, increase it when deficient, and stimulate its flow into the intestinal canal; they promote a healthy appetite and effectually remove the "hot coppery" taste in the mouth which is so common to some persons on first waking in the morning. Irregularity of the bowels with flatulence is quickly rectified by appropriate doses of these digestive Pills, a regular course of which seldom fails to remove all those obstructions to which females are so liable, especially when approaching the change of life, and also at other periods.

Feeble and Irregular Circulation, Nervous Exhaustion and Despondencies,

A great advance in power is quickly manifest as the effects of these tonically aperient Pills are exerted on the nervous centres; as they free from the blood all impurities, hereditary or acquired, they supply a healthy pabulum to the brain and spinal cord, thus going to the very essence of the matter.

Chest and Throat Diseases.

These Pills taken at the very onset, cut short Bronchial Catarrhs, Quinsies, and Asthmatic attacks, and when perseveringly used in conjunction with the Ointment, will often hold Consumption in check, and prevent its advance to an incurable stage.

Nervous Headaches, Giddiness, and Palpitations.

These complaints are most distressing, and can only be effectually cured by regulation of the secretions, for which purpose no household medicine equals—or at all events excels—these Pills.

These Pills and Ointment are sold at THOMAS HOLLOWAY'S Establishment, 78 New Oxford Street, late 533 Oxford Street, London, also by nearly every respectable Vendor of Medicine throughout the Civilised World, in Boxes and Pots, at 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each.

N.B.—Advice Gratis, at the above address, daily, between the hours of 11 and 4, or by letter.

AN UNFAILING REMEDY.

HOLLOWAY'S OINTMENT

Is an almost infallible remedy when used (in conjunction with the Pills for all Pulmonary Complaints and Diseases of the Throat and Air Passages. As a topical derivative it works wonders in cases of Bronchial Asthma, Catarrh and Influenza, and it quickly reduces enlarged Tonsils, Mumps, and all Glandular Swellings of the neck and face.

Eruptions, Blotches, and Chronic Skin Diseases.

The local effect of this detergent Ointment is surpassingly effective, but the Blood must be well cleansed by suitable doses of the Pills to thoroughly eradicate the mischief.

Ulcerations, Swellings, and Pitting of the Flesh.

When well rubbed into the Swollen parts and freely applied to open Wounds and Sores it penetrates the pores and tranquilizes the excited blood-vessels. Inflammation is subdued, and the wound quickly heals.

Neuralgia, Rheumatism, and Gout.

These foes to human peace can readily be kept at bay by persistent use of this potent remedy. The diet must be light and cooling, and the inflamed state of the system reduced by appropriate internal treatment. When used in close conjunction with the Pills, benefit will be derived in the worst forms of Chronic Gout, Stiffened Limbs, and Neuralgia.

Abscesses, Excoriations, and Piles.

These painful maladies are amenable to persevering treatment by means of this Ointment, as it reduces the swelling, promotes the healing of abraded surfaces, and soothes the painful throbbing of the affected parts.

The Ointment and Pills are sold at THOMAS HOLLOWAY'S Establishment, 78 New Oxford Street, late 533 Oxford Street, London, also by nearly every respectable Vendor of Medicine throughout the Civilised World, in Boxes and Pots, at 1s 1 $\frac{1}{2}$ d, 2s 9d, 4s 6d, 11s, 22s, and 33s each.

N.B.—Advice Gratis, at the above address, daily, between the hours of 11 and 4, or by letter.

THE CORPORATION OF THE SCOTTISH PROVIDENT

INSTITUTION,

6 St. Andrew Square, EDINBURGH.

IN THIS INSTITUTION are combined the **ADVANTAGES** of
Mutual Assurance with Moderate Premiums.

The **PREMIUMS** are so moderate that at most ages an Assurance of £1200, or £1250 may be secured from the first for the same yearly payment which would elsewhere assure (with profits) £1000 only—the difference being equivalent to an immediate and certain Bonus of 20 to 25 per cent.

The **WHOLE PROFITS** go to the Policyholders, on a system at once safe and equitable—no share being given to those by whose early death there is a *loss* to the common fund.

The effect of *reserving* the surplus for the survivors (who will, however, comprise more than half the members) has been that—in addition to the above immediate advantage—the older Policies have already received reversionary Bonuses of 40 to 70 per cent. and upwards.

The next Investigation takes place in 1887.

EXAMPLES OF PREMIUM FOR £100 AT DEATH, WITH PROFITS.

AGE.	25	30*	35	40†	45	50
DURING LIFE,	£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7
21 PAYMENTS,	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

* A person of 30 may secure £1000 at death by a yearly payment, *during life*, of £20 15s, which would generally elsewhere secure £800 only, instead of £1000. Or he may secure the same sum of £1000 by *twenty-one* yearly payments of £27 13s 4d, *being thus free of payment after age 50.*

† At age 40 the Premium *ceasing* at 60 is, for £1000, £33 14s 2d, being about the same as most Offices require during the whole term of life. *Before that time the Policy will have shared in at least one division of profits.*

The **NEW BUSINESS** has for many years exceeded a **MILLION.**

Expenses much under those of any office doing so large a new business.

THE FUNDS (increased in year by £323,000)

EXCEED £5,500,000.

Only two Offices in the Kingdom (both older) have as large a Fund.

CLAIMS payable on proper title One Month after proof of Death, which is in most cases equivalent to *immediate* payment.

REPORTS, with *Statements of Principles and Tables of Rates* may be had on application.

LOTHIAN'S Annual Register.

Building Operations, &c.

DURING the past year, Alloa has not been at a standstill as regards building operations. While a general depression has been experienced all over the country, almost every trade having been affected, it is gratifying to know that Alloa has not suffered so much as many other towns similarly situated, and with the impetus in the building trade, we may hope that indication is given of even more prosperous times in other branches of industry. At least one new feature has been added to our public works within the past two years—viz., the Eglinton Dyewood Mills (erected in the vicinity of the Albion Iron Foundry), which, we understand, employs a goodly number of workmen. Several buildings of more or less importance have been finished during the year 1886, but undoubtedly the most important building operations, begun at all events, have been the new Town Hall and Library—being erected at Marshall—and the new North British Railway Station. We would therefore begin this brief notice with a reference first of all to the

NEW TOWN HALL.

The extreme length of the building (which has now assumed somewhat formidable proportions even in an unfinished state) is 165 feet, the extreme breadth of the front portion (facing Marshall) is 87 feet, while the breadth of the main portion, which consists entirely of the hall, is 54 feet. The platform will be fully twenty feet in length and about fifteen feet in breadth, so that there will be no lack of platform space for entertainments of whatever kind. The height of the front portion of the buildings from the ground line to the ridge is 66 feet, while the height of the hall from ground line to ridge is 40 feet. The building, we may say, is in the Gothic style of architecture. The centre block of the front portion projects fully 8 feet beyond the general line of frontage ; the upper

part of the frontage, which will be broken off with pilasters, will project from the wall line and terminate in moulded corbels; while those of the centre will terminate in an ornamental gable top. The main entrance will be by a handsome doorway placed in the centre of the block facing Marshill, which will be 12 ft. wide, and will have a semi-circular top. Being three feet above the level of the roadway, the entrance door is reached by means of a flight of steps, but the floor of the hall being almost on a level with the roadway, the area will be reached by a descent of several steps. Springing from the hall floor there is on either side a handsome stair-case leading to galleries and rooms above. On the ground floor, and on either side of the entrance, there will be ladies' and gentlemen's lavatories, cloak rooms, porter's rooms, &c. In this portion of the structure there will be two side entrances to the hall, to one of which carriages may approach. The hall, as might have been expected, is to be fitted with side and end galleries, with orchestra and space for organ, having also retiring rooms at back of platform, to which entrance may be had at the extreme north end of the building. The entire area of the hall will be furnished with chairs instead of forms, and in the basement of the hall there will be cellars for the reception of these chairs when the floor requires to be cleared. In the basement, also, provision is made for the boiler and heating apparatus. On the first floor in the front block is situated Reading Room, Billiard Room, Smoking Room, Library, and Reference Library,—the Billiard and Reading Rooms having galleries all round, while the book-cases will be affixed to the walls and will be reached from these galleries. On the second floor there will be provision for the Art School, which will include Master's Room, Elementary Room, Model Room, &c.; indeed the whole of the second floor will be more or less devoted to the purposes of the Art School, and all these rooms will be reached by the main stair-cases, lighted from above by means of glass roof. At the north end of the building on the second floor (immediately to the back of the hall) rooms will be provided for the keeper. Referring again to the hall, we may say that the inside measurements are—height from floor to ceiling, 36 ft.; length of hall, 95 ft.; breadth, 49 ft. It will be lighted by fourteen windows on each side—no roof lights being thus required. At the extreme north end there will be an ornamental ventilating shaft rising to a height of 88 ft. from the ground, which will effectively ventilate the hall and carry the smoke from the heating apparatus. The heating will be by steam, and the system of ventilation will be of the most approved character. Without going into detail the above may give an idea of the magnificent gift of Mr John Thomson Paton, of which we are sure the entire community feel justly proud.

The contractors for the new Town Hall are :—Mason work,

Messrs G. & R. Cousin ; joiner work, Mr Thomas Brown, Glasgow; plaster work, Mr James Grant ; slater work, Mr R. Macfarlane ; plumber work, Messrs Philip & Hutchison. The plans are by Mr Waterhouse, R.A., London ; the Clerk of works and local representative of the architect is Mr Monteith, Tullibody Road.

ALLOA STATION.

The Railway Station, at top of Primrose Street, is being entirely re-constructed—the main idea carried out being an “Island Platform,” with dock accommodation for local trains. The platforms will be over 500 ft. in length, the main platform being about 70 ft. broad, and the dock platforms each 26 ft. in breadth. The old offices, waiting-rooms, &c., are to be entirely cleared away, and the new offices and booking hall are to be situated to the east of Greenfield Bridge—the booking hall, offices, parcel office, &c., being on a level with the bridge to the east. Passengers, after booking, will descend by a flight of steps to the main platform, where will be situated on a level with the main platform, waiting-rooms, stationmaster's office, telegraph office, cloak rooms, porters' room, and refreshment rooms. The whole of these erections are to be substantially built of stone—which will really be a contrast to the many wooden erections of the former cramped and comfortless station. Then, the main platform is to be entirely roofed over from end to end, and it is expected that the dock platforms will be similarly treated, thus affording every comfort and convenience for the travelling public. All the buildings are to be situated on the central platform. In order to provide for the west-going main line, an additional arch has been put to Greenfield Bridge. Passengers wishing to enter the booking hall will do so by a covered entrance to the east of Greenfield Bridge: an excellent carriage-way and carriage stance being also provided. There will be no entrance to the station by the old route. Passengers on leaving trains, however, will in place of proceeding to the entrance at Greenfield Bridge cross the lines by a commodious covered wooden bridge and land at end of Primrose Street, so as to avoid confusion with passengers leaving trains and those going with them. The shunting sidings on the site of the old goods station will be utilised for the storage of coaching stock—such accommodation having been much needed. The water tank has been removed from its present position to close upon Greenfield Wall—the water being led from this tank to the watering columns placed at suitable points near the running lines. There is likewise an excellent turning table to the west of the station on which all engines are turned. Three signal cabins have been erected in connection with the station—designated “The

East Cabin," situated to the east of Greenfield Bridge; the "Central Cabin," placed between the two bridges—Mar Place and Ludgate; and "West Cabin," situated at Grange Crossing. The contractors for the station buildings are Messrs G. & R. Cousin, builders, Alloa, who are carrying out the work under the superintendence of Mr Carsewell and Mr Bell, the railway engineers. At present the work is well advanced. A neat dwelling-house or villa has been erected on the north-east corner, for the station-agent—Mr John Wilson.

ARNSBRAE HOUSE.

This fine residence, situated at Arnsbrae, near Alloa, the property of James Younger, Esq., brewer, has now been completed and occupied. It has a very picturesque appearance, situated as it is on the rising ground, being partly surrounded by trees, and having the dark Ochils in the background. The building is in the Gothic style of architecture and is built from plans by Mr Waterhouse, R.A., London. The contractors were:—Mason work, Messrs G. & R. Cousin; joiner work, R. Cairns; slater work, R. Macfarlane; plaster work, J. Ure, Dunfermline; plumber work, Philip & Hutchison.

OTHER BUILDINGS.

The Alloa Co-Operative Society have erected a substantial and well-proportioned three-storey block of shops, show-rooms, offices, &c., on the east side of Primrose Street, from plans by Messrs T. Frame & Son, architects. In the same street, but nearer the Railway Station, Mr A. Carmichael of the Victoria Hotel, has erected a two-storey block of shops and dwellinghouses. At Ludgate a two-storey tenement of houses has been erected by Mr A. Ferguson, joiner, while a villa has just been completed by Mr W. Hutchison, plumber, at West Kellie Place. At Claremont a villa is being erected for Messrs J. & H. I. Muil; at Stirling Road a self-contained house is being erected by Mr Lowe, ironmonger, and a double villa by Mr A. L. Mitchell, joiner. A new teaser house and wool store have been added to Springfield Mills from plans by Messrs J. Melvin & Son; valuable additions have been made to the County Hospital from plans by Messrs Melvin; a villa is in course of erection at Grange; dwelling-houses have been erected at Craigward, Kellybank, and Tullibody Road; and a new school at Sauchie. The plans of the last-mentioned were by Messrs Frame, the builder being Mr John Thomson.

THE WILLISON MEMORIAL.

A beautiful monument has been erected in Sunnyside Cemetery to commemorate the late Provost Willison, who died 19th January, 1885. The monument, the work of Mr James Robertson, sculptor, has an imposing appearance. Composed of best Binny freestone, it consists of two square pilasters with carved wreaths of oak leaves and acorns surmounted by antique urns with foliage wreaths intertwined through handles and with fillited base. These pilasters rest on two moulded bases. The centre piece is filled in with freestone of the same quality and inserted into the face are two marble tablets for the inscriptions. On the extreme top of the centrepiece is the Willison crest (a crescent with flames), underneath which are cut in bold relief the words, "In Memoriam." The inscriptions upon the tablets (neatly cut and filled in with lead letters) are as follow :—

ROBERT WILLISON,

of the

ALLOA COPPER WORKS,

Died 19th Jany., 1885.

Aged 61 Years.

This Stone is erected by the friends of

ROBERT WILLISON

who for Five Years was Chief Magistrate of the Burgh of Alloa, to commemorate his public services, and to mark their appreciation of his upright and generous character.

RESURGAM.

The whole is enclosed with neat border-stone which is surmounted with ornamental iron railing of suitable height. The grave consists of three lairs and the monument with border stone has been founded the full depth of the grave, viz., nine feet. Altogether the work is highly creditable to our townsman Mr Robertson, and it should also be mentioned that Captain M'Dowall, Messrs A. L. Mitchell and J. Grant, members of committee, inspected the work while it was in progress, and have taken a great interest in the erection of the last tribute of respect to the late Chief Magistrate Mr Willison. The inscriptions on the monument, and a sermon on the occasion of the demise, were from the pen of the Rev. J. Wilson Harper, West Free Church, Alloa.

The majority of Lord Erskine (eldest son of the Countess and Earl of Mar and Kellie), was celebrated with great rejoicings at Alloa Park House and in Alloa Tower in the end of August, 1886. There was also a great banquet in honour of the event on the 22nd September, 1886, in the Drill Hall, Alloa, under the presidency of Lord Balfour of Burleigh.

BY ROYAL  **LETTERS PATENT**
BAUCHOP'S PATENT SELF-ACTING AIR-PUMP
VENTILATORS.

HUNDREDS IN USE ALL OVER THE COUNTRY.

ADVERTISEMENTS.

THESE VENTILATORS are pronounced by all who have seen or used them, to be the best yet brought out. They are made on an entirely new principle, and are applicable for the Ventilation of Halls, Churches, Dwelling-houses, Warehouses, Drying Rooms, Stables, and Buildings generally; also Sewers, Soil-pipes, and Drains.

A constant renewal of the air is absolutely necessary in any building, as its purity is being constantly depreciated either by its vital part being absorbed or by impure vapour being disengaged and dispersed through it, so that ventilation simply resolves itself into securing, in as perfect a manner as possible, a constant supply of fresh air, and the necessary escape of the foul.

This is the only Ventilator in existence which perfectly provides for the free escape of this vitiated air, as by its construction it absolutely and perfectly protects the up-current of foul air from being checked by cross or down-blowing wind, and prevents down-draught or rain—no matter at what angle either strikes Ventilator—from entering any building. This is attained by having the annular opening for the escape of the vitiated air protected by a circular protecting case so constructed so as to attain this result perfectly, and not in the slightest degree either check the up-draught, or interfere with the free exit of the foul air.

They have no mechanical movement, and consequently no working parts to wear down, and so require no attention, and will work efficiently so long as they last. They work continuously, and although the air of the place where they are fixed is being continually changed, there is no perceptible draught or air current in the building, and they have entirely superseded all other Ventilators in this quarter. They can be made to suit various styles of architecture.

Mr Willison will be happy to advise, free of charge, on the Ventilation of Public Buildings of every description, if particulars are sent of same, stating size of building, number it accommodates, and if ceiled or open roof. A rough sketch, when convenient, should also be sent. Estimates furnished free of charge when required. All work executed on the most moderate terms, and efficiency guaranteed.

EXPERIENCED WORKMEN SENT TO ALL PARTS OF THE COUNTRY.

"Deservedly World-Famed."

"40 Grove-end-Road, St John's.wood, London, June 29, 1886.

Gentlemen—I have much pleasure in testifying to the efficacy of your deservedly world-famed Blood Mixture. During the greater portion of six years I was the subject of numerous and very painful eruptions on the face and neck, and in vain did I try remedy after remedy till I well-nigh despaired of being cured. Happening one day to hear a conversation in which the complaint from which I was suffering was described as having been completely cured through recourse to Clarke's Blood Mixture, I immediately invested in a bottle, and the results which at once followed were simply marvellous. By the time I had finished the first bottle I was on the high road to recovery, and on the completion of the second I am happy to say my face was quite restored to its former clearness, and I have never since been troubled in the least with my unpleasant complaint.

J. D. THORNTON.

"Ill and unable to work for months."

April 3rd, 1886.

Dear Sirs,—As a Lincolnshire man and a patron of your celebrated Blood Mixture, I respectfully ask you to send us a little for our bazaar. I know it will find a ready sale, as two or three of our members have been greatly benefited by it. One of our members had been ill and unable to work for months; he was induced to try your Blood Mixture, and he was at work again in a fortnight. Another friend had a poisoned hand, and was under a physician and a surgeon also, cost scores of pounds, is now restored through using your Blood Mixture, and will take part in our opening ceremony. Two or three of my own children have benefited by its use, and I am now trying to induce another friend who has been ill with eruptions for months to take it, so that I would be glad if you would send us some for sale as I am confident it will induce others to try it. Thanking you in anticipation, yours sincerely,

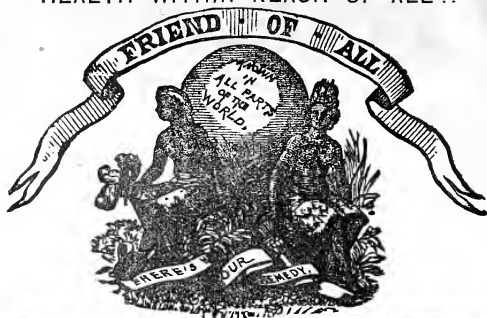

JOSEPH B. KINGSTON,

Secretary Primitive Methodist Mission, Gillespie-road, Highbury-vale.

Thousands are annually preserved from serious illness by their timely administration.

These Pills effectually clear out the cavities of the liver, promote digestion, and regulate the secretions generally. They never fail to relieve in these complaints.

Nervous Weakness.

These justly celebrated Pills restore tone to the nerve centres, whether the nervous and physical forces have been partially or wholly lost or from whatever other cause this disease may arise.

THE MOST VALUABLE REMEDY!!

HOLLOWAY'S OINTMENT

Gout, Rhenmatic Gout, and Rheumatism.

All who suffer from Rheumatism, or are liable to periodic attacks of Gout, should not fail to have a supply of this invaluable Ointment at hand, as it is admirably calculated to relieve the pain of these most agonizing ailments, and it possesses the power of penetrating to the deeper seated structures through the pores of the skin.

Excoriations and Wounds of all kinds.

By rubbing Holloway's Ointment around the part affected, it will become absorbed and exert its beneficial influence by causing the wound to contract, arresting inflammatory action, and setting up a healthy tone to the abraded surface. In all cases the *Pills* should be taken to amend and purify the Blood.

Glandular Swellings and Stiff Joints.

In all swellings of the neck, or other parts of the body, whether glandular, simple or malignant, the use of this Ointment will prove an inexpressible blessing. The enlargement subsides as by a charm, and the structures restored to their natural condition. Stiff joints regain their mobility, and elasticity of gait secured.

Piles, Fistulas and Ulcerations.

It is marvellous the effect Holloway's Ointment has, as a rapid curative agent, on these complaints. If the parts be kept well clean with tepid water, and this Ointment applied, it will soothe the most irritable of Piles, Fistulas or Ulcerations, and restore them to a healthy condition.
